## 1. Introduction to Category Info

**Prestashop Category Info** is a small extension which can help you improve navigation of your website. This module places a special block either on left or right side of a page where it shows up total number of items and the range of product prices within this category. So a customer can judge right away what kind of sum he can count on spending.

The module is super easy to install and configure, so it will take just a couple of minutes to start using it on your website.

### Key features:

- Adds a new block which shows up number of products available on this category;
- Range of prices for all products within a category;
- Possibility to add blocks either to left or right side of a category page.

## 2. How to Install and Deactivate

1. Set 777 or 0777 on the folders: '/modules/'

**Important! Change all permissions back after installation.**

2. Go to **Modules** -> **Add a module from my computer** -> choose the file (.zip) -> upload this module. Choose module in section **Front Office Features** and install it.

3. Go to **Advanced Parameters** -> **Performance** -> click the **Clear Smarty Cache** button

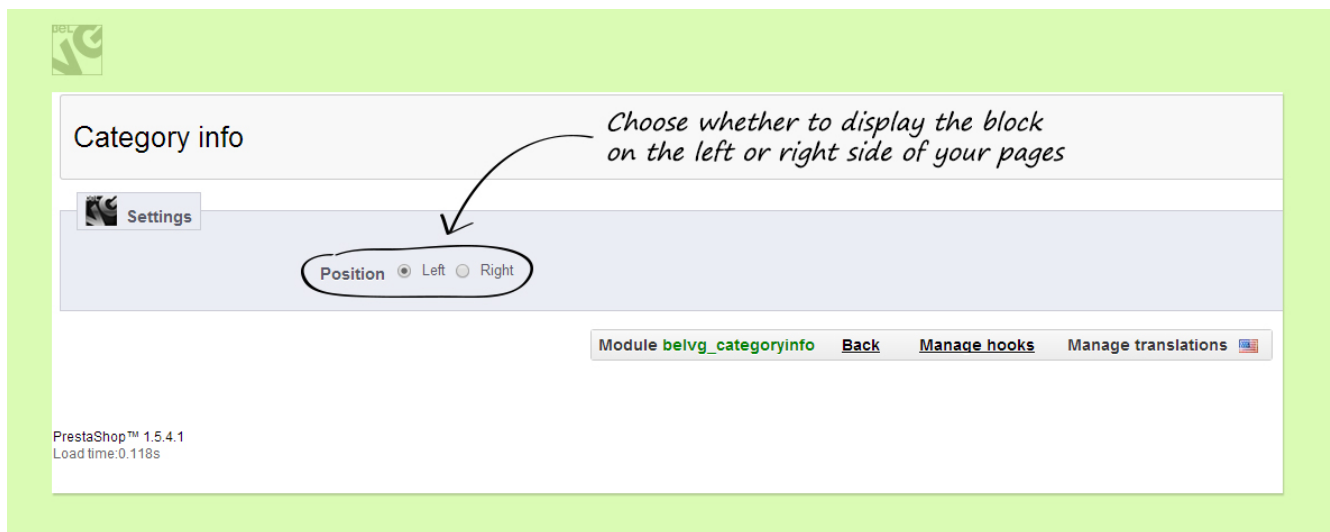

### How to Deactivate

Click the button **Disable** in **Modules** -> **Front Office Features**.

To remove the extension from the server, press **Delete** in **Modules** -> **Front Office Features**.

### 3. How to Configure

Go to your Prestashop admin panel to **Modules-> Modules ->Category Info -> Configure**. The module offers only two options to configure: you need to choose either you want the block to be displayed on the left or right side of your pages.

These are all settings available for this module. As soon as you are ready click **Save** and start enjoying your new extension!

## 4. How to Use

Now let's see how this module will look like on your website.

As soon as you install the module it adds a separate block to your pages (left or right side) with the total number of items in each category and their price range.

The screenshot shows a website interface with a light green background. The main content area displays the 'Ipods' category page. On the left sidebar, there is a 'CATEGORIES' section with a sub-category 'IPODS' highlighted by a red circle. Below it, the text '2 item(s)' and 'from \$66.05 to \$158.07' is displayed. A handwritten note with an arrow points to this section, stating: 'Module displays total number of items under the current category and their price ranges'. The main content area shows two products: 'iPod Nano' and 'iPod shuffle'. The 'iPod Nano' is priced at \$158.07 (reduced from \$166.39) and the 'iPod shuffle' is priced at \$66.05. The right sidebar contains sections for 'SPECIALS', 'OUR STORE(S)', and 'CONTACT US'.
