1. Introduction to Events Wall

With **Prestashop Events Wall** module you provide your customers with the most interesting news and latest events that users can comment or like & share on Facebook. The extension also includes a poll system, which allows you to get acquainted with customers' preferences.

Key features:

- Event wall with news and picture gallery
- User posts moderation
- Poll system
- Highlighting some news as "Super Event"
- Like and Send Facebook buttons

General Information

Let your customers know about current events in your store with Prestashop **Events Wall** module. News can include images, so your customers will enjoy exciting and illustrated information. The "Super Event" function keeps the most important events framed and on the top of the page.

Customers may share their ideas about your events in comments or send opinions to their Facebook friends.

Another way of user-admin communication, offered by the module, is a poll system. Ask serious questions, offer precise answers and get the required information.

2. How to Install

1. Set 777 or 0777 on the folders: '/modules/eventswall.zip/'

Important! Change all permissions back after installation.

2. **Modules** -> **Add a module from my computer** -> **Choose the file (eventswall.zip)** -> Upload this module

3. **Back Office** > **Modules** > **Front Office Features** and install.

4. **Back Office** > **Preferences** > **Performance** - enable the Force compile.
Performance -> **Performance** -> **Cache: No**

Important! Change all settings back after installation

How to Deactivate

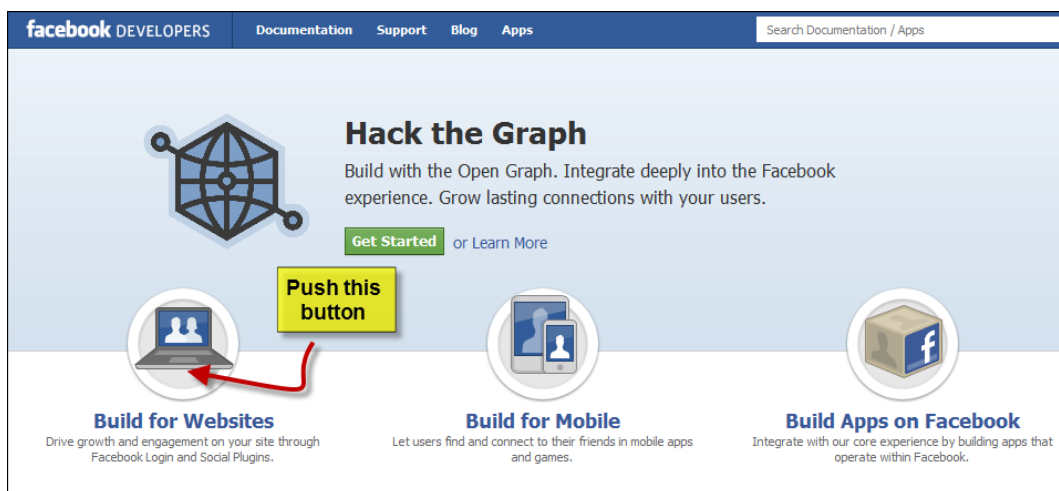

Office > **Preferences** > **Performance** - enable the Force compile.

Back Office > **Modules** > **Front Office Features** and uninstall.

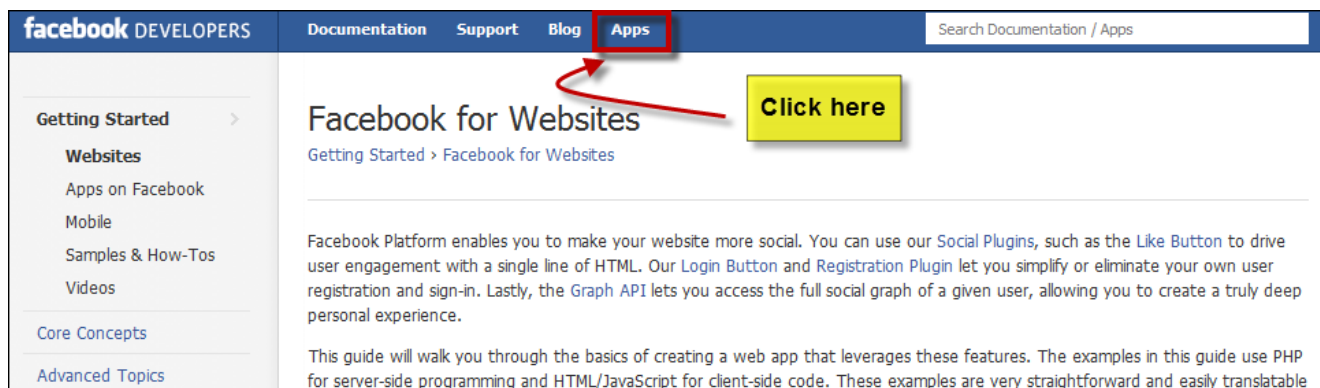

That's all! Enjoy the **Events Wall** performance.

3. How to Create Facebook App

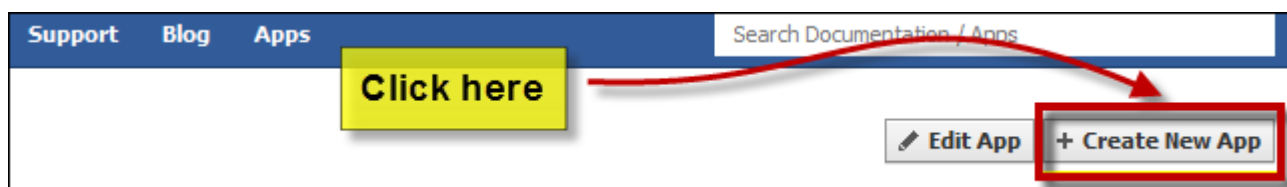

To create a Facebook app you need to go to the <http://developers.facebook.com/> and choose **Build for websites** option (on the left side).

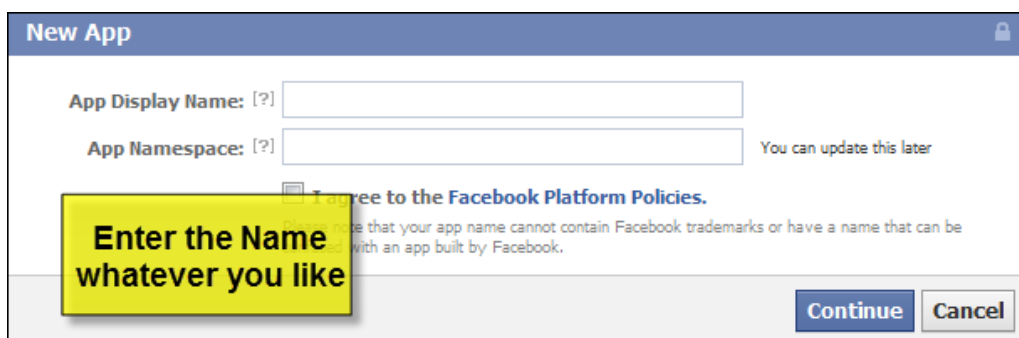

Then choose the **Apps** tab.

Press the **+Create new App** button.

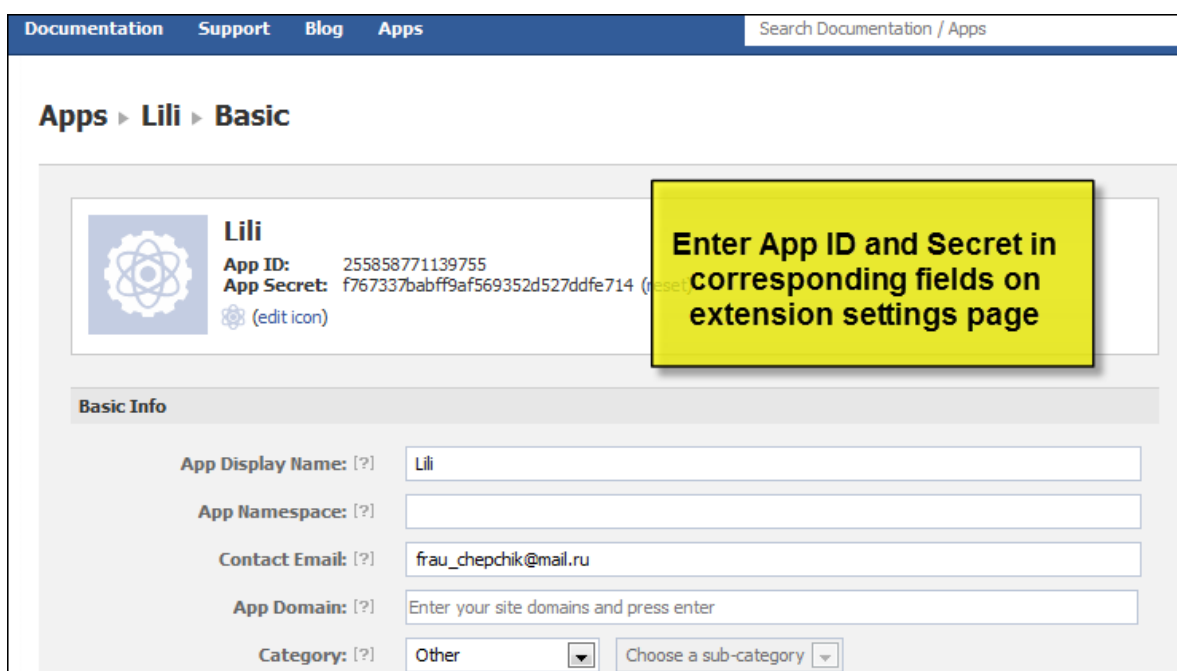

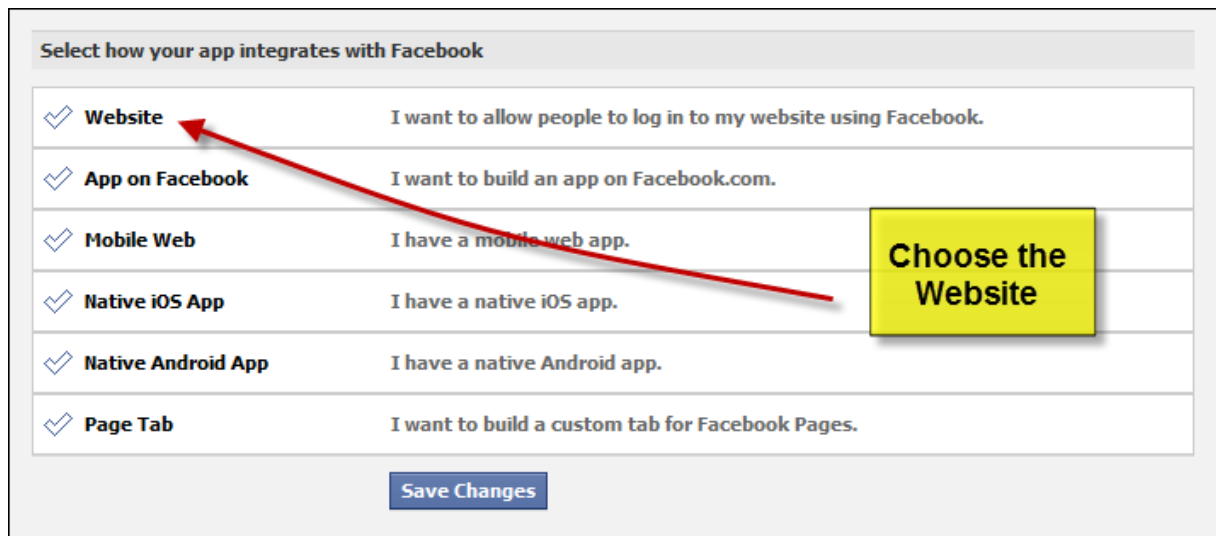

Name your app and push the **Continue** button.

The next step is the Captcha confirmation.

Type the site address in the **Site URL** field. Remember the following **Application ID** and **Application Secret** to enter them in corresponding fields on extension settings page.

Select how your app integrates with Facebook

<input checked="" type="checkbox"/> Website	I want to allow people to log in to my website using Facebook.
<input checked="" type="checkbox"/> App on Facebook	I want to build an app on Facebook.com.
<input checked="" type="checkbox"/> Mobile Web	I have a mobile web app.
<input checked="" type="checkbox"/> Native iOS App	I have a native iOS app.
<input checked="" type="checkbox"/> Native Android App	I have a native Android app.
<input checked="" type="checkbox"/> Page Tab	I want to build a custom tab for Facebook Pages.

[Save Changes](#)

Enter all the data and Save changes.

Now your Facebook App is created. Congratulations!

4. How to Configure

Log in to the admin panel, and we will show you how to configure the extension step by step.

To view the extension settings, go to **Modules** → **Front Office Features** → **Events Wall** → **Configure**.

5. How to Use

It's time to get acquainted with **Events Wall** features and the ways customers may use them. We will visually review extension options and activities related to them.

You can share your current events and add poll system.

The screenshot displays the EventsWall interface. At the top left, there is a monitor icon showing a website. Below it, a section titled "LAST POSTS ON WALL" lists several posts. To the right, a "FEATURED PRODUCTS" section displays four products: iPod Nano, iPod shuffle, MacBook, and iPod touch. Each product has a description, an image, a price, and buttons for "View" and "Add to cart". A yellow callout box with the text "The user sees last posts and poll system" is overlaid on the iPod shuffle product. Below the featured products, there is a poll system titled "EventsWall ask: What can you say about our new extension?". The poll has four options, each with a radio button and a text input field.

proident, sunt in culpa qui officia deserunt mollit anim id est laborum

FEATURED PRODUCTS

iPod Nano	iPod shuffle	MacBook	iPod touch
New design. New features. Now in 8GB and 16GB. iPod nano rocks like never before.	iPod shuffle, the world's most wearable music player, now clips on in more vibrant blue, green, pink, and red.	MacBook makes it easy to hit the road thanks to its tough polycarbonate case, built-in wireless technologies, and innovative...	Revolutionary Multi-Touch interface 3.5-inch widescreen color display Wi-Fi (802.11b/g) 8 mm thin Safari,...

LAST POSTS ON WALL

- Endeavor bachelor
- Admiration we surrounded possession
- Unpleasant astonished
- Inhabit hearing perhaps on ye do no
- Suitable disposal add boy

EventsWall ask:
What can you say about our new extension?

- ☐ Excellent work, guys!
- ☐ It looks interest. But something is missing.
- ☐ Not bad... But you, guys, need to strives for the best.
- ☐ I don't like it. You losers:)

The user sees last posts and poll system

Also you can add images to events, which will be displayed in picture gallery.

You may highlight news with “Super Event” function.

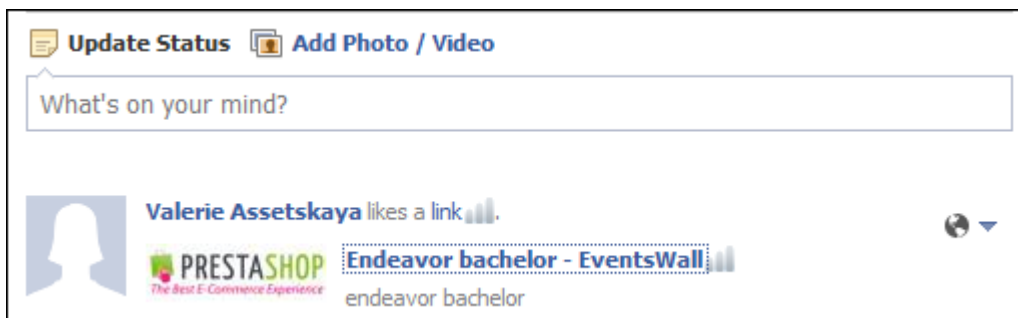

Customers may share their ideas about your events in comments or send opinions to their Facebook friends.

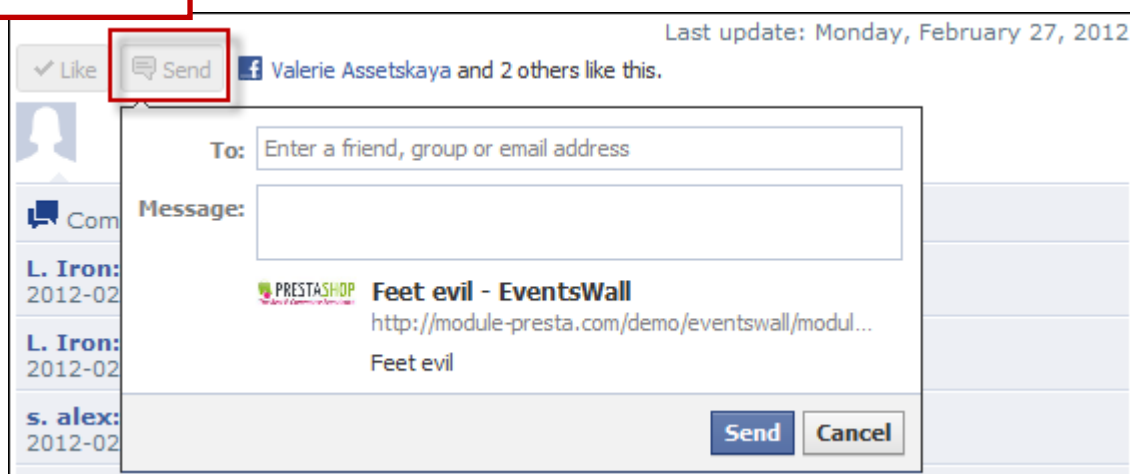

5.1 How “Like” feature works

The Facebook Like button is activated for all events.

5.2 How “Send” feature works

Customers may **Send** their opinions on events to their Facebook friends
