1. Introduction to Jewelry Prestashop 1.6 Responsive Theme

Try our new sophisticated **Jewelry Prestashop 1.6 Responsive Theme**. It has a sleek design with an emphasis on ergonomics and ease of use. Fully responsive to fit all screens.

This template would be perfect for any jewelry store, its colors highlight the beauty of precious metals and gemstones, but minimalist design makes it suitable for any type of shop.

The theme comes with lots of built-in functionality. Scroll Top module will make the navigation a super convenient experience, with the help of banners and sliders your store becomes lively and catchy, and the use of CSS transform for product images, banners, and icons will allow you to create a unique view of the store.

Highlight features:

- CSS transform for product images, banners, icons;
- Adaptive Prestashop theme;
- Superb design perfect for stores selling jewelry;
- PSD homepage, banners and sliders included;
- Scroll Top module included;
- Static blocks module included;
- Fixed header on scroll.

General features:

- Cross-browser support. Compatible with IE8+, Firefox 10+, Safari 5, Chrome 5, Opera 10;
- Easy to change design and layout;
- Prestashop 1.6;
- HTML 5, CSS 3, Bootstrap and JavaScript.

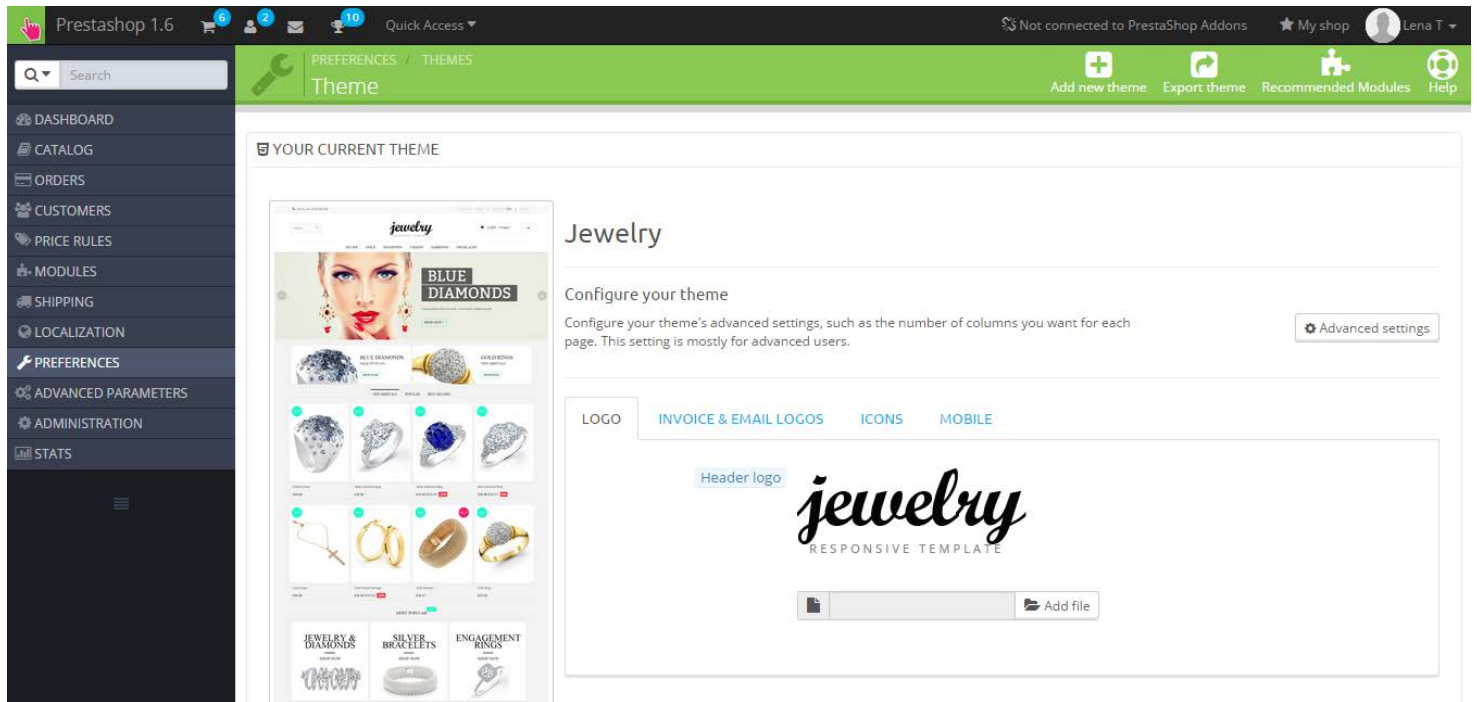

Mobile features:

- Device rotation support;
- Android/iPhone/iPad compatibility;
- Opera mobile compatibility.

2. How to Install

In order to install a new theme from Admin Panel, please follow these steps.

Go to **Preferences**→**Themes** and press **Add new theme** button.

Upload Zip of the theme in the next window.

And select a new theme as a shop custom theme and press **Save** button.

To install the theme via **FTP** add the theme to the “**Themes**” folder via FTP client.

3. How to Install the Scroll Top Module

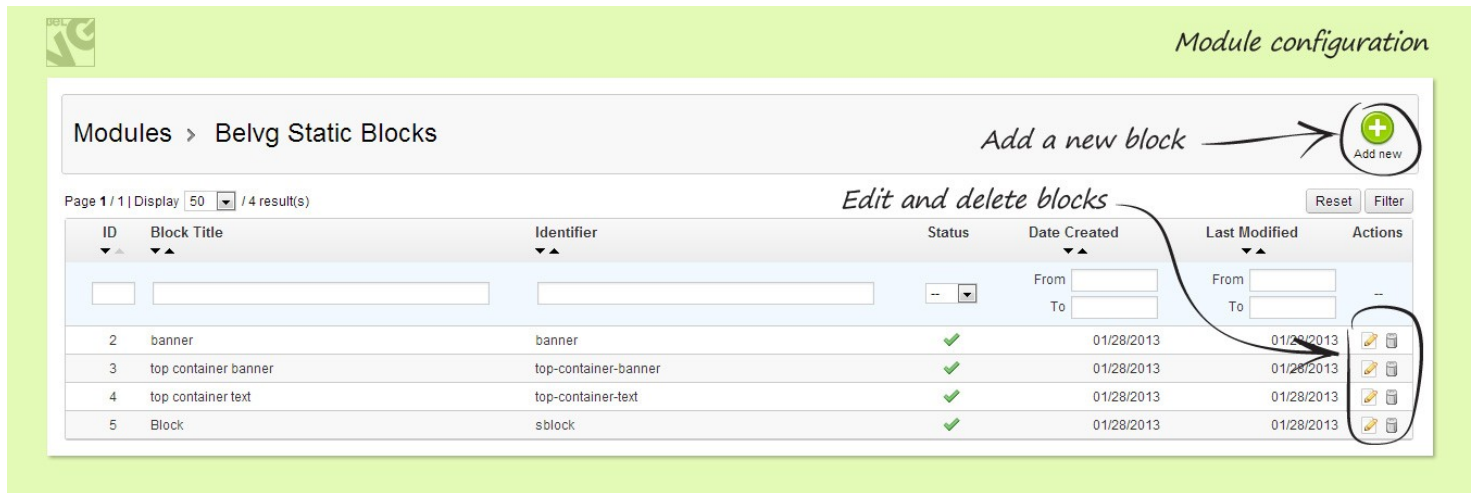

Go to **Modules** → **Modules** and press **Add a new module** button.

Upload the **Scroll Top** module from the theme archive in the next window. Now the module is installed and ready to work.

4. How to Configure the Static Blocks Module

Navigate to **Modules** → **Belvg Static Blocks**.

Here you can see the list of all your static blocks. Click the **Edit** or **Delete** icons to perform the respective actions. Click the **Add New** button to create a new block.
