## 1. Introduction to Price List

**Prestashop Price List** is a useful solution for managing and generating price lists. The module allows to automatically generate price lists. The lists can be created for a specific product category or for the whole store. The download button for the price lists is displayed directly on the frontend.

### Key features:

- Generate your price lists automatically on the basis of selected attributes;
- Price lists can be download both as PDF and Excel files;
- Create separate price lists for all your products and for a specific product category;
- Customer is able to download either full price list or a specific one based on the category he is currently in;
- The pricelist block is available on every website page.

### Overall information

Generating a pricelist could be quite a cumbersome and tiresome task especially if there is a great number of items to be managed and included. We are glad to introduce you the automated solution which can do the job on the fly.

The module lets you automatically create price lists on the basis of attributes which you specify in the settings.

You can also specify to generate pricelists both for the whole list of products and by category and the download link will be available on every page of your store.

## 2. How to Install and Deactivate

### How to Install

1. Set 777 or 0777 on the folders: '/modules/'

**Important! Change all permissions back after installation.**

2. Go to **Modules -> Modules -> Add a module from my computer ->** choose the file (.zip) -> upload this module. Choose module in section **Front Office Features** and install it.

3. Go to **Advanced Parameters -> Performance ->** click the **Clear Smarty Cache** button

### How to Deactivate

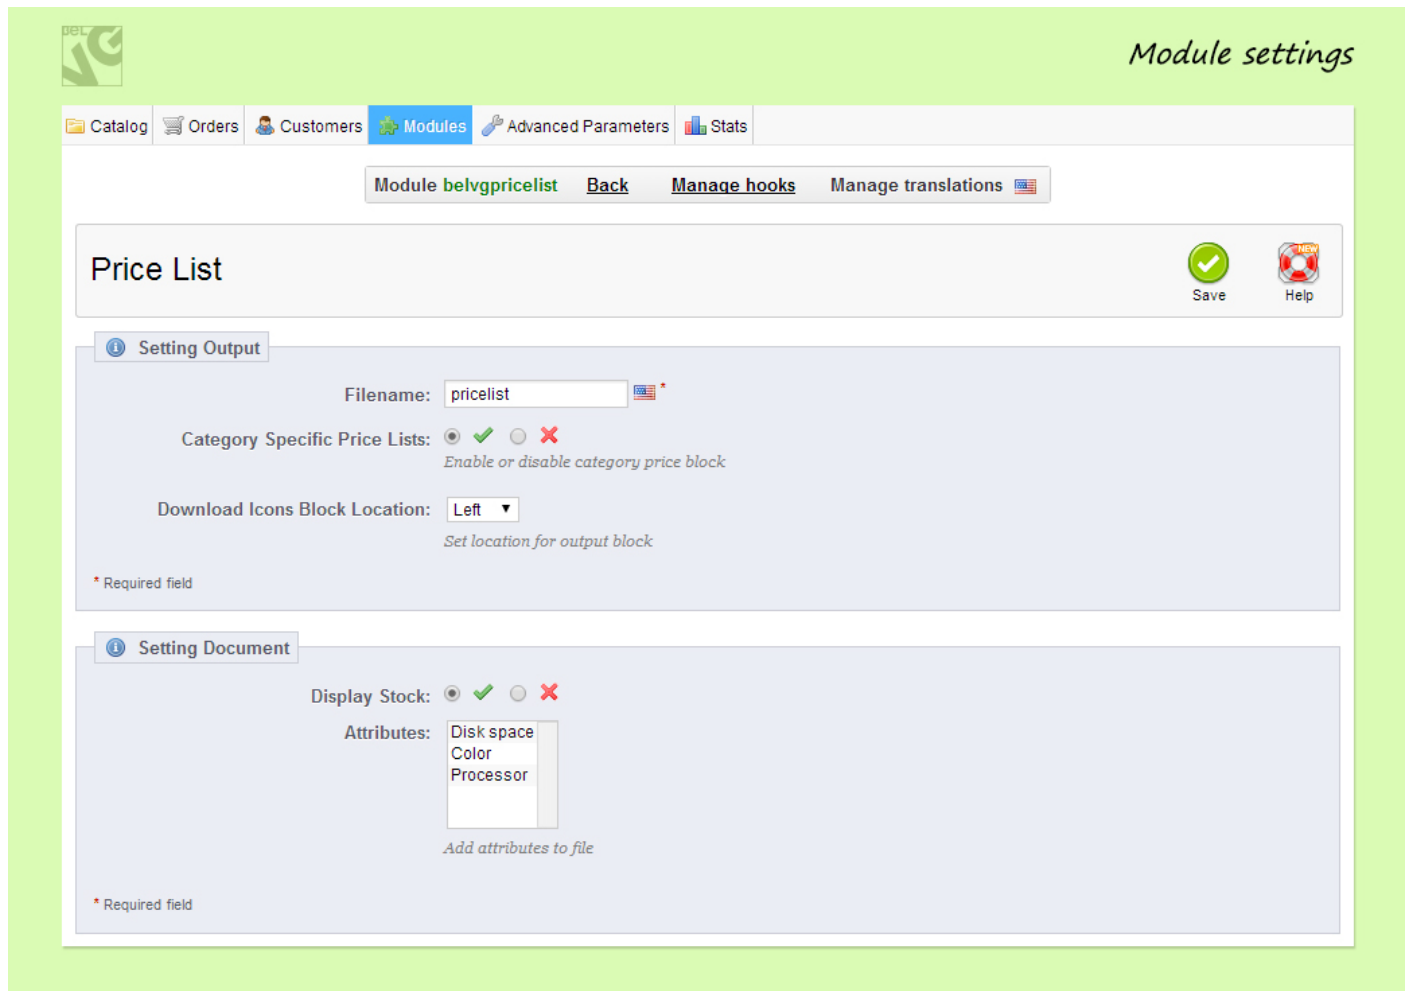

Click the button **Disable** in **Modules -> Front Office Features**.

To remove the extension form the server, press **Delete** in **Modules -> Front Office Features**.

### 3. How to Configure

To configure the module log into Prestashop admin panel and go to **Modules -> Modules -> Price List -> Configure**.

The module settings include the following items:

- **Filename** – the name of the price list file;
- **Category specific price lists generation**– enable this option if you want to generate a separate price list for every product category;
- **Download icons block location** – select the location of the *Price List* block on the frontend;
- **Display stock**– this option lets you show the number of items left for each product in the pricelist;
- **Attributes** – select which attributes should be added to the price list.

Once the settings are ready just click *Save* and the module will start working.

## 4. How to Use

As soon as you install and enable the module it will add a **Price List** block on every page of your site. The block will contain two links to download the price list either in PDF or Excel format.

The block provides links to download the price list as a PDF or Excel file

**GLOBAL PRICE LISTS**

You can also enable the module to display a separate price list for every product category.

The screenshot shows a website interface for 'YourLogoHere'. The main navigation includes Home, iPods, and Accessories. The left sidebar contains filters for TAGS (apple, ipod, nano, shuffle), CATEGORIES (iPods, Accessories, Laptops), and MANUFACTURERS (Apple Computer, Inc, Shure Incorporated). A callout box highlights 'IPODS PRICE LISTS' and 'GLOBAL PRICE LISTS' in the sidebar, with an arrow pointing to the iPod product listing. A handwritten note says 'Module settings let you create a separate price list for each product category'. The main content area displays 'iPods' with a 'Compare' button and a 'Sort by' dropdown. The product listing for 'iPod Nano' is highlighted with a 'NEW' banner and a 'REDUCED PRICE!' tag, showing a price of '\$158.07 Available' and an 'Add to cart' button. The right sidebar features 'NEW PRODUCTS' including iPod Nano, iPod shuffle, MacBook Air, and MacBook.
