## 1. Introduction to Rainbow Mobile Theme

Give the mobile version of your store a fresh striking look with Prestashop Rainbow Mobile Theme. It provides the site with full functionality on all modern mobile and tablet platforms. Pick the style from 8 juicy colors and install it instantly. Play with the spectrum to choose the one reflecting the spirit of your store perfectly. Upload images to be displayed in a lovely adaptive slider.

### Highlight features:

- Adaptive mobile slider
- HTML5 markup
- jQuery Mobile
- Device rotation support
- Product images slider
- 8 Rainbow color styles

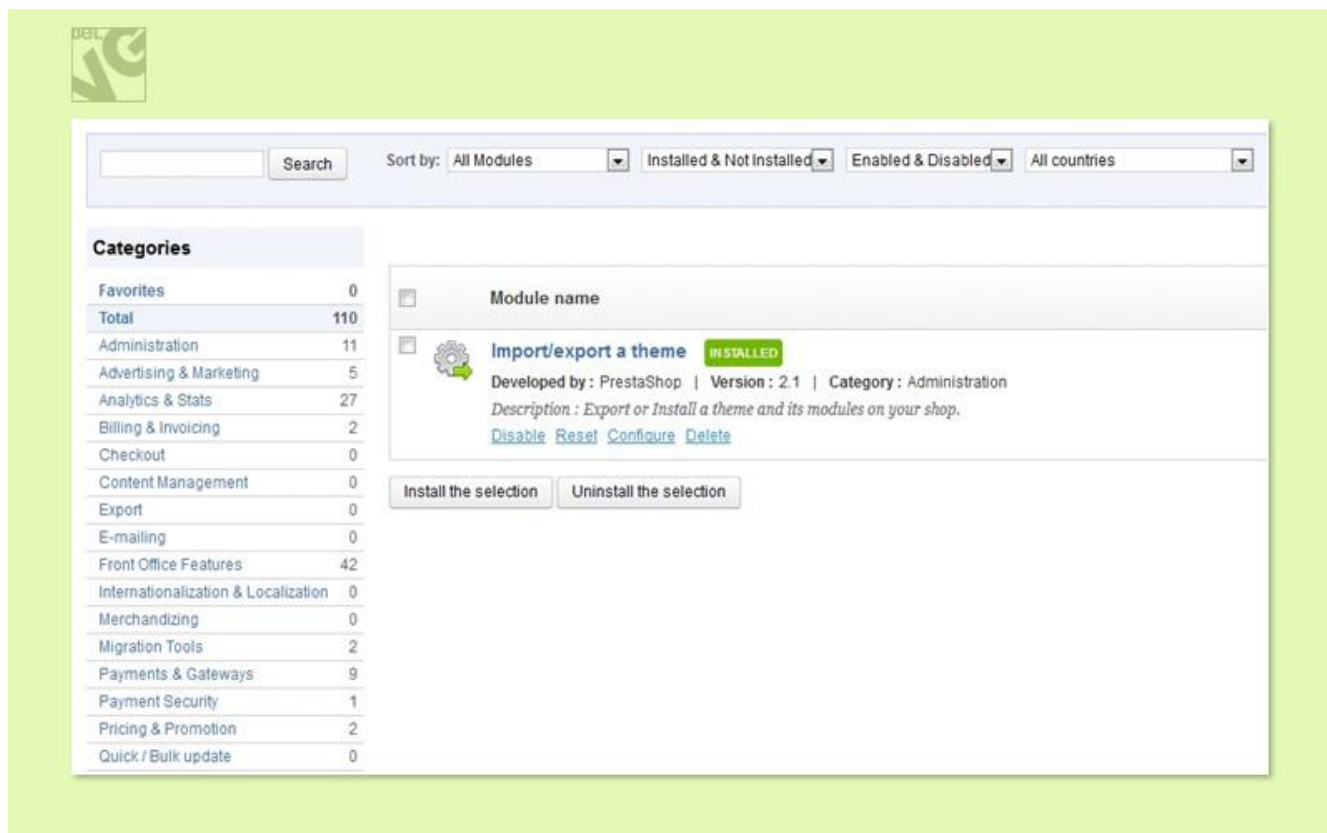

### General features:

- Android/iPhone/iPad/Windows Phone/Kindle fire compatibility
- Opera mobile compatability

## 2. How to install

In order to install a new theme, please follow these steps:

1) Import your theme using [Theme Installer](#) module.

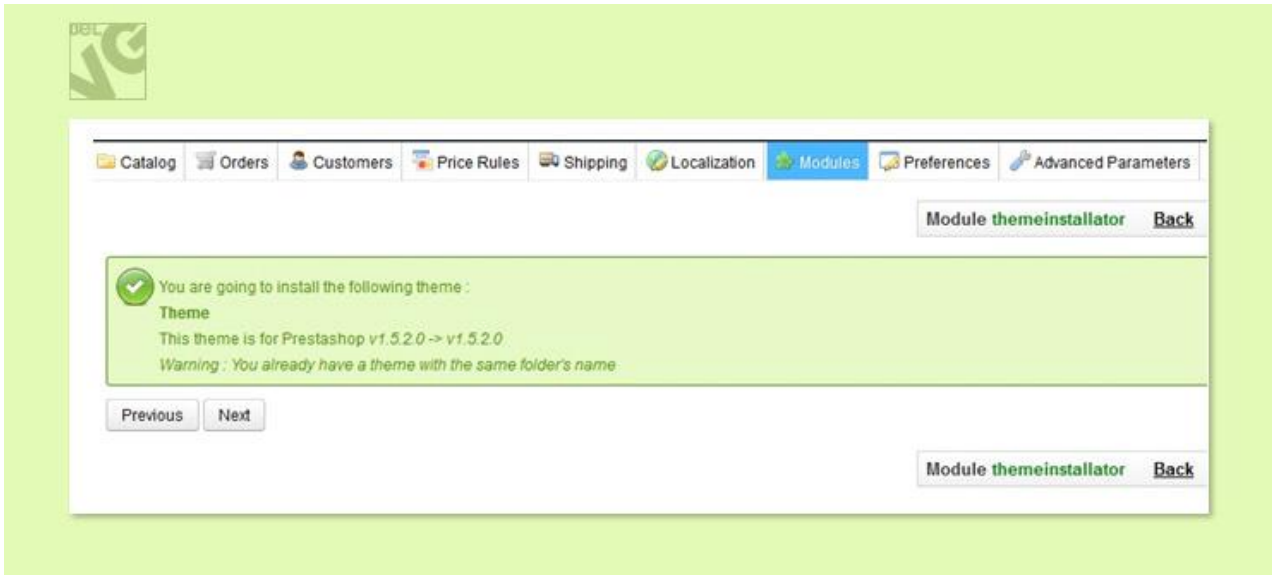

## 2) Upload the archive file

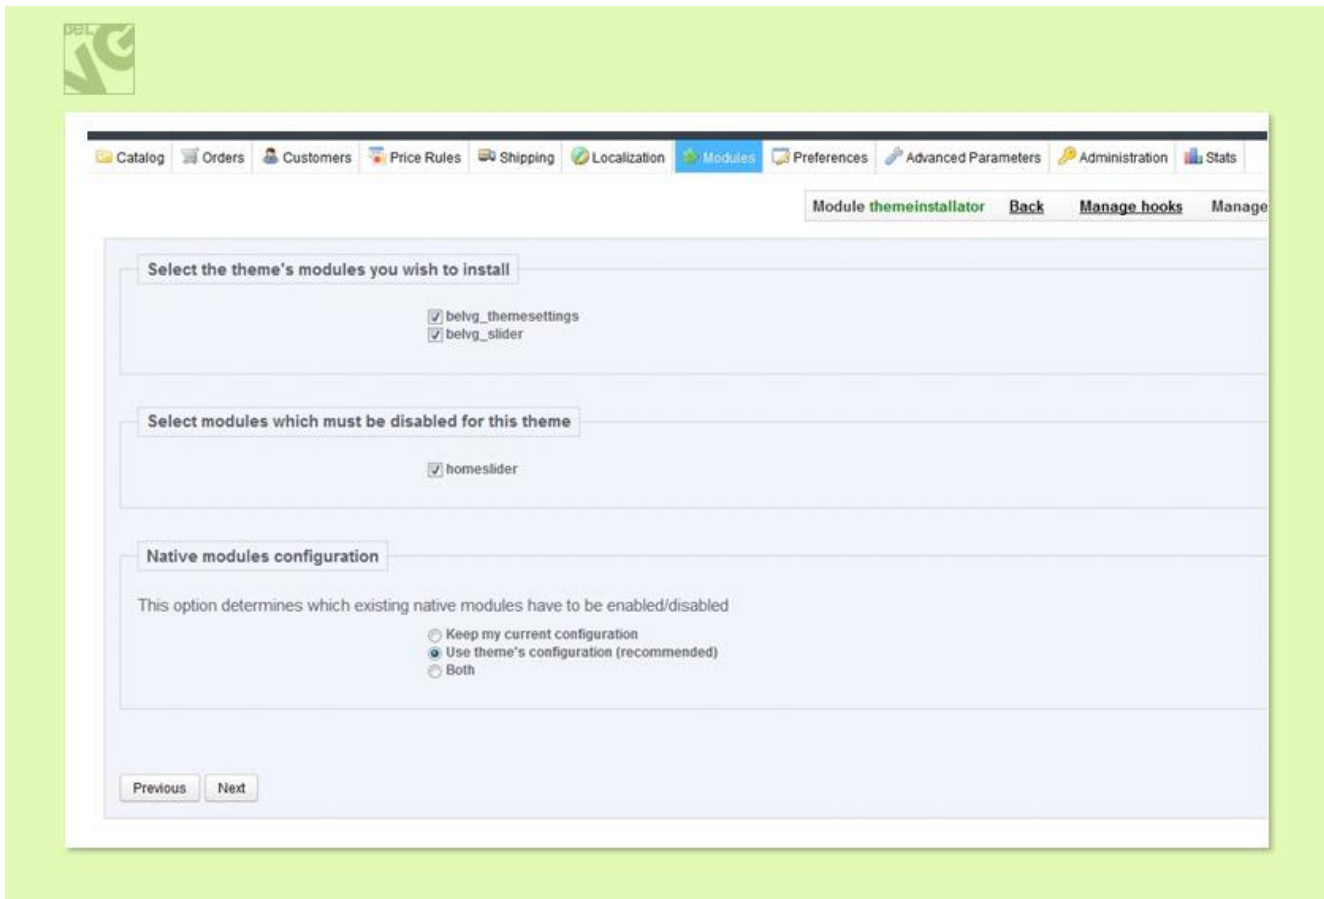

The screenshot displays the PrestaShop theme installer interface with three main sections:

- Export a theme:** Includes a dropdown menu labeled "Select a theme" with the text "select a theme to export" and an "Export this theme" button.
- Import from your computer:** Features an "Archive File" input field, a "Browse" button, and the text "Where is your zip file?". This section is highlighted with a black oval.
- Import from the web:** Includes an "Archive URL" input field with "http://" and a "Next" button.
- Import from FTP:** Features a "Select archive" dropdown menu and the text "Select the ZIP file you want to use (previously uploaded in your modules/themeinstallator/import/ directory)".

### 3) Confirm the installation

4) Select modules to be installed and configuration to be enabled. It's recommended to consider the preselection.

5) Status is being displayed.

6) Select the template.

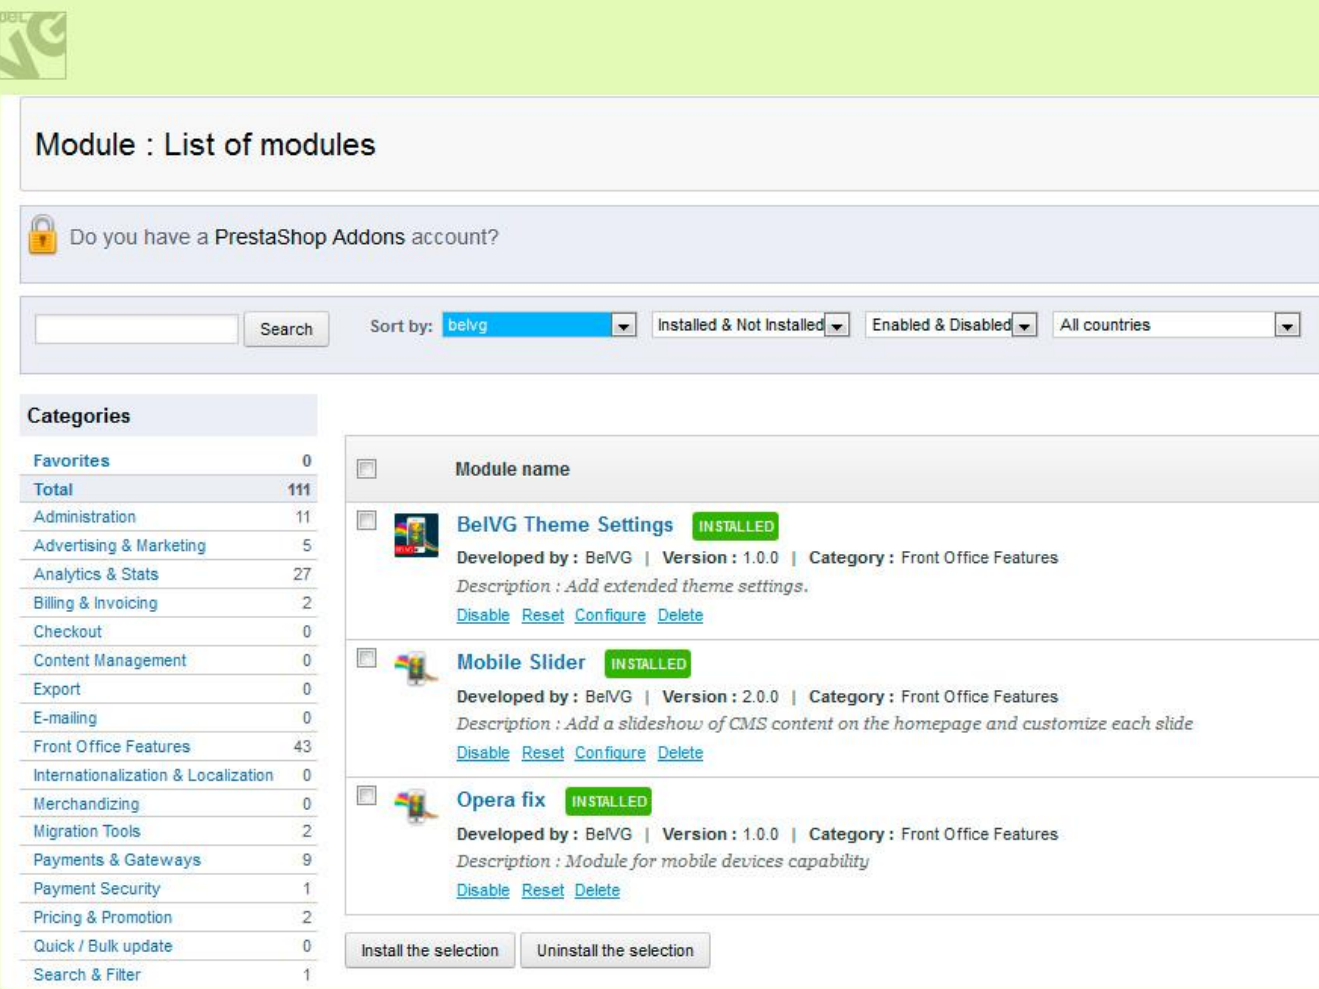

The screenshot shows the 'Theme appearance' configuration page in PrestaShop. At the top, there is a 'Theme appearance' section with a sub-section 'Select theme for shop blue'. Two theme preview cards are shown: 'default' (a standard e-commerce layout) and 'rainbow' (a mobile-themed layout with a rainbow background and a smartphone displaying the BELVG logo). Below this is an 'Appearance' section with a 'Check/uncheck all' checkbox. Two settings are visible: 'Header logo' and 'Mobile Header logo', both set to a 'Rainbow' logo. The 'Header logo' setting includes a text input field and the note 'Will appear on main page'. The 'Mobile Header logo' setting includes a text input field and the note 'Will appear on mobile main page. If undefined, the Header logo will be used'.

### 3. How to Configure and Use

The theme is configured in the back-office.

Make sure that all modules are enabled after the installation.

Install the selection | Uninstall the selection

To select the color, go to **Modules -> BelVG Theme Settings -> Configure**.

In the **Available themes** menu, select the color. Save your selection.

To upload images to be displayed in the slider, go to **Modules -> Mobile Slider -> Configure**.

In the WYSIWYG editor, edit slides. Upload pictures (keep the image dimensions as small as possible; when it comes to file size and display speed, small images fare better than large ones) or insert text. Save your slider configuration.

Please note:

in order to install the mobile theme on a custom template, move all the files from the **rainbow/mobile** folder to the **[your\_custom\_template]/mobile** folder.

Do you have questions about theme configurations?
