1. Introduction to Runway Fashion Responsive Prestashop 1.6 Template

Lift your store up from the RUNWAY Fashion Responsive Prestashop 1.6 Template. Reasonably minimalistic in design – it helps focus on colorful navigation elements. The theme is functional and ready to accommodate your extensions. It's responsive and looks good on mobile devices. Originally meant for clothing stores and accessories it's both functional and neutral enough to present any type of product.

Runway Prestashop 1.6 Template is coded by certified professionals for your comfort and store growth. Inbuilt functional extensions like: Homefeatured slider on homepage, Static blocks module and Scroll Top module.

Highlight features:

- CSS transform for product images, banners, icons;
- Adaptive Prestashop theme;
- Superb design perfect for stores selling cloth and accessories;
- PSD homepage included;
- Homefeatured slider on homepage;
- Scroll Top module included;
- Static blocks module included;
- Fixed header on scroll.

General features:

- Cross-browser support. Compatible with IE8+, Firefox 10+, Safari 5, Chrome 5, Opera 10;
- Easy to change design and layout;
- Prestashop 1.6;
- HTML 5, CSS 3, Bootstrap and JavaScript.

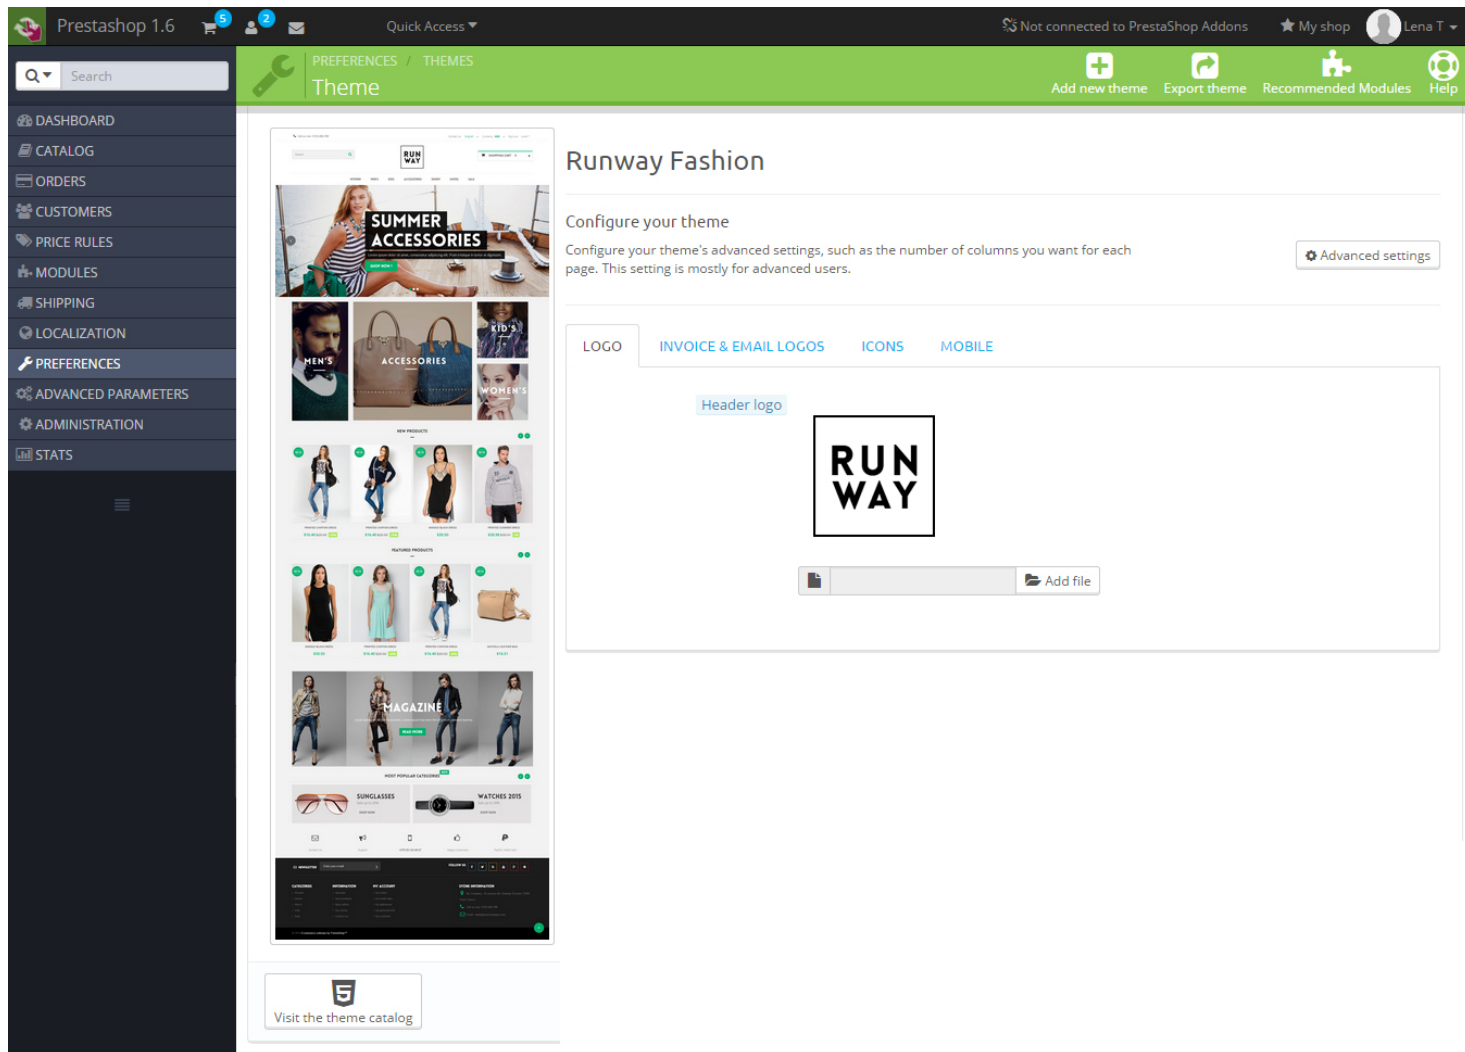

Mobile features:

- Device rotation support;
- Android/iPhone/iPad compatibility;
- Opera mobile compatibility.

2. How to Install

In order to install a new theme from **Admin Panel**, please follow these steps.

Go to **Preferences**→**Themes** and press **Add new theme** button.

Upload Zip of the theme in the next window.

And select a new theme as a shop custom theme and press **Save** button.

To install the theme via **FTP** add the theme to the “**Themes**” folder via FTP client.

The screenshot shows an FTP client interface with the following table of files and folders:

3. How to Install the Scroll Top Module

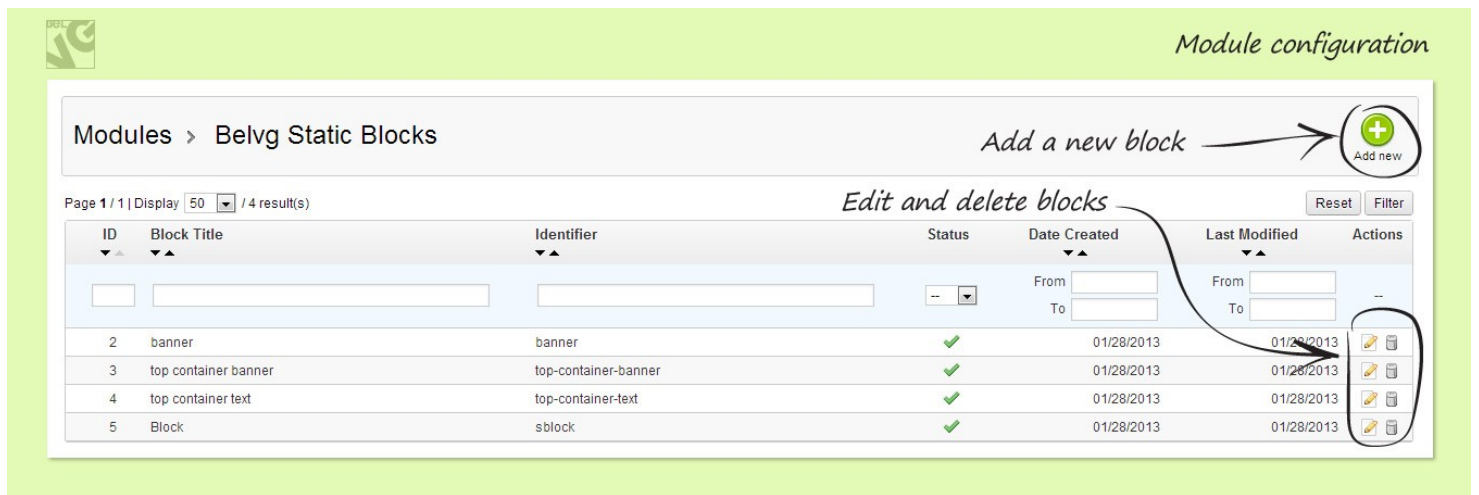

Go to **Modules** → **Modules** and press **Add a new module** button.

Upload the **Scroll Top** module from the theme archive in the next window. Now the module is installed and ready to work.

4. How to Configure the Static Blocks Module

Navigate to **Modules** → **Belvg Static Blocks**.

Here you can see the list of all your static blocks. Click the **Edit** or **Delete** icons to perform the respective actions. Click the **Add New** button to create a new block.
