Introduction to Shop Switcher	3
How to Install and Deactivate.....	4
How to Configure	5
How to Use	7

1. Introduction to Shop Switcher

If you own a multistore, shop switching feature is a must-have for you. Shop Switcher module allows customers to proceed from one store of yours to another with one simple click. The extension adds a neat drop-down menu to the navigation bar. The menu lists all stores in groups and matches any design perfectly. In the back office you can configure the stores to share customers. The account will thereby be automatically available on the others shops within this group.

Key features:

- Shop switcher navigation tool
- Elegant design
- Flexible configuration
- Possibility of sharing a customer account

2. How to Install and Deactivate

How to Install

1. Set 777 or 0777 on the folders: '/modules/'

Important! Change all permissions back after installation.

2. Modules -> Add a module from my computer -> Choose the file (shopswitcher.zip) -> Upload this module. Choose module in section "Front Office Features" and install module

3. Preferences -> Performance -> Smarty-> Force compile -> Yes

Preferences -> Performance -> Smarty-> Cache: No

How to Deactivate

Click the button **Disable** in Modules -> Front Office Features.

To remove the extension from the server, press **Delete** in Modules -> Front Office Features.

3. How to Configure

Module configuration is fast and simple.

Navigate to **Modules -> Shop Switcher -> Configure**.

Select **Yes** if you have groups of stores and want customers to have the possibility of switching between shops within these groups only.

Proceed to **Advanced Parameters -> Multistore**.

The screenshot shows the Prestashop Multistore configuration interface. At the top right, it says "Multiple shops configuration". The main header is "Advanced Parameters > Multistore". On the left is a "Multistore tree" with "Shop groups list" containing "Group: Default" and "Group: Shop Group 2". The main area contains a table of shop groups:

ID	Group shop	Actions
1	Default	
2	Shop Group 2	

Below the table are "Save" and "Help" buttons. At the bottom, there is a "Multistore options" section with a "Default shop:" dropdown menu set to "Shop Switcher".

These are default Prestashop Multistore settings. Create stores and group them. Edit the groups: enable or disable options of sharing customers, sharing available quantities to sell and sharing orders.

4. How to Use

Shop Switcher drop-down menu appears on the front end:

Guests can switch between stores easily:

The screenshot shows an e-commerce website interface. At the top right, there is a 'Shop: Shop Switcher' dropdown menu. The menu is open, showing options: 'Shop Switcher', 'shop1', 'shop2', 'au', 'en', 'fr', and 'us'. A hand-drawn circle highlights the menu, and an arrow points to it from the text 'The user selects the shop and it loads instantly'. The website header includes a logo 'YourLogoHere', a search bar, and navigation links like 'Home', 'iPods', and 'Accessories'. The main content area displays 'iPods' with a list of products and a promotional message: 'Now that you can buy movies from the iTunes Store and sync them to your iPod, the whole world is your theater.' The right sidebar features 'SPECIALS' with an 'iPod Nano' offer and 'OUR STORES' with a photo of a building.
