Introduction to Advanced Search	3
How to Install and Deactivate.....	4
How to Configure	5
How to Use	7

1. Introduction to Advanced Search

Advanced Search feature will turn your default search block into very informative and visually appealing instrument. The user simply types the beginning of the word or phrase and our module does the rest. Unlike default suggestions in the popping up list (names of products only), Advanced Search allows displaying images, information about the items and its prices. The user will find the required item quickly and easily without looking through numerous catalog pages.

Key features:

- Advanced search instead of the default one
- Images, information and prices in the suggestions list
- No configuration required

2. How to Install and Deactivate

How to Install

1. Set 777 or 0777 on the folders: '/modules/'

Important! Change all permissions back after installation.

2. Modules -> Add a module from my computer -> Choose the file (belvg_blocksearch.zip) -> Upload this module. Choose module in section "Front Office Features" and install module

3. Preferences -> Performance -> Smarty-> Force compile -> Yes

Preferences -> Performance -> Smarty-> Cache: No

How to Deactivate

Click the button **Disable** in Modules -> Front Office Features.

To remove the extension from the server, press **Delete** in Modules -> Front Office Features.

3. How to Configure

In order to enable the module, go to Modules -> Modules -> **Belvg quick search block** and click “Enable”. It’s enabled by default.

The module is ready to use – no configuration required.

4. How to Use

Default search is not informative and not user-friendly.

Default search

The screenshot shows a website interface with a search bar at the top. The search bar contains the text "ipod" and a "SEARCH" button. A dropdown menu is open below the search bar, listing several search suggestions. A red circle highlights the search bar and the dropdown menu. The suggestions are:

- iPods > iPod shuffle
- iPods > iPod Nano
- iPods > iPod touch
- Accessories > Shure SE210 Sound-Isolating Earphones for iPod and iPhone
- Accessories > Belkin Leather Folio for iPod nano - Black / Chocolate

The website also features a navigation menu with "Home", "iPods", and "Accessories". There are sections for "TAGS" (apple, ipod, nano, shuffle, superdrive, ipod touch), "CATEGORIES" (iPods, Accessories, Laptops, Belvg, Test Category, Sample Category, Category-2, Soon...), and "FEATURED PRODUCTS" (iPod Nano, iPod shuffle, MacBook, iPod touch). The "iPod shuffle" product is highlighted in the featured products section with a price of 68,59 py6. There is also a "SPECIALS" section showing a discount on the iPod shuffle.

Advanced search is informative and visually appealing.

Suggestions pop-up includes images, information and prices.

The screenshot shows a web application interface with a search bar containing the word "Laptop". A search results pop-up is displayed, showing two product listings:

- MacBook Air**: Price: 1504.18 \$
- MacBook**: Price: 1170.57 \$

Handwritten annotations on the image include:

- "Image" pointing to the MacBook Air product image.
- "Info" pointing to the product description text for the MacBook Air.
- "Price" pointing to the price of the MacBook Air.

The background of the screenshot shows a navigation menu with "Home", "iPods", and "Accessories". There are also sections for "TAGS" (ipod, apple), "CATEGORIES" (iPods, Accessories, Laptops), "MANUFACTURERS" (Apple Computer, Inc, Shure Incorporated), and "SUPPLIERS" (AppleStore, Shure Online Store). A "FEATURED PRODUCTS" section shows various items with "NEW" banners. On the right, there are sections for "NEW PRODUCTS" (simonchik, Free item, Microsoft Windows, Rayban Sunglasses) and "SPECIALS" (iPod Nano with a -5% discount).

Do you have questions about extension configurations?
