Advanced Order Confirmation Page

THANK YOU!

BELVG

Table of Contents

1. Introduction to Advanced Order Confirmation Page

It is very important to provide order details to customers. With our "Advanced Order Confirmation Page" extension you will be able to display more data about a completed order. Additional and explicit information makes customers feel comfortable after they just have made purchase and allow them to check all the data one more time on a full-size confirmation page.

When a customer completes an order (s)he gets transferred to an order confirmation page. Default Prestashop confirmation page provides only concise data, and this information does not reflect all order details.

With this new module you can provide a full description of an order completed by your customer and allow them to leave a comment for every product at the final stage.

Key features:

- Order reference, order status and order date are displayed;
- Shipping, billing, and payment details are displayed;
- Quantity, unit and total price are shown;
- Customers can leave comments about their orders.

2. How to Install and Deactivate

How to Install

1. Set 777 or 0777 on the folders: '/modules/'
Important! Change all permissions back after installation.

2. Go to Modules -> Modules -> Add a module from my computer -> choose the file (.zip) -> upload this module. Choose module in section Front Office Features and install it.

3. Go to Advanced Parameters -> Performance -> click the Clear Smarty Cache button
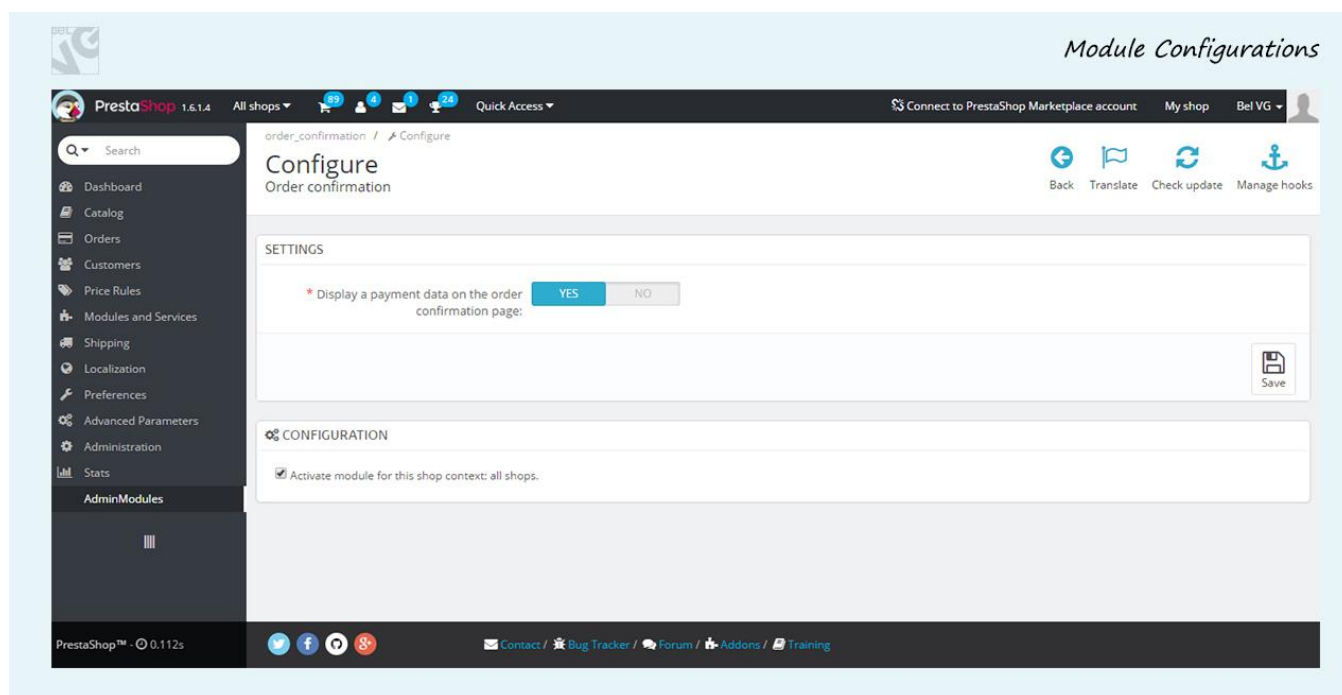

How to Deactivate

Click the button Disable in Modules -> Front Office Features.

To remove the extension form the server, press Delete in Modules -> Front Office Features.

3. How to Configure and Use

At first you should log into your Prestashop admin panel and find **BelVG Order Confirmation** module in **Admin Modules** directory. Click the **Configure** button to set it up.

As you can see it's very easy to configure this module. Just set "Display a payment data on the order confirmation page" status to "YES" . And in case you want to activate this module for all shops, just click the on the check box. That's all, no more settings are required. And now your customers get the new and informative Order Confirmation Page.
