## 1. Introduction to Blocks Constructor Multi-Language

Based on **Prestashop Blocks Constructor**, this module creates fully editable blocks in different languages to improve your store content. It offers Blocks Constructor main functions, allowing you to add the unlimited number of blocks with information of your choice (text, images, links) and select their display language.

### Key features:

- Placing blocks in any of fifty hooks (page sections)
- Adding unlimited number of blocks in different languages
- Define block content, which may include text, images, link
- Set blocks starting and expiring dates
- Order blocks in hooks (page sections)
- Create block content using **WYSIWYG editor included**

### Overall information

Are you looking for a perfect solution to add advertisement or banners to attract customers? You don't need to edit your store template, because Blocks Constructor Multi Language helps you create as many blocks as you wish and place them accordingly.

Specify the block and its language to be shown in any page section and insert text, image or link there to create flexible and meaningful announcements and promotions.

You can set blocks that will appear at specific time to draw customers' attention to some special offers or events in your store.

## 2. How to Install

1. Set 777 or 0777 on the folders: '/modules/'

**Important! Change all permissions back after installation.**

2. Modules -> Add a module from my computer -> Choose the file (bcmultilang.zip) ->  
Upload this module.

Choose module in section "Front Office Features" and install module

3. Preferences -> Performance -> Smarty-> Force compile -> Yes  
Preferences -> Performance -> Smarty-> Cache: No

## How to Deactivate

Click the button **Disable** in Modules -> Front Office Features.

To remove the extension from the server, press **Delete** in Modules -> Front Office Features.

That's all! Enjoy the **Blocks Constructor Multi-Language** performance.

### 3. How to Configure and Use

Log in to the admin panel, and we will show you how to configure the extension step by step.

To view the extension settings, go to **Modules → Blocks Constructor Multi Lang**.

Here is the grid with standard Prestashop hooks (page sections like footer, left column blocks, tabs on product page and many others).

#### Blocks Constructor

This module was developed by [www.BelVG.com](http://www.BelVG.com). For docs & examples refer to the BelVG [web site](#). We have the largest selections of [extensions](#) and [themes](#) on Prestashop.

**Define the block language**

**Blocks include title, language, position, displaying date and the content**

**Add links and images, using wysiwyg**

As a result of your work, customers will be able to see advertising banners, announcements, links and other notifications in frontend. Get acquainted with a couple of examples:

Homepage Content

Homepage Content in German

Product Footer and Left Column Blocks

The screenshot shows a product page footer and left column. A yellow box on the left contains the text: "Insert blocks with text and links wherever you like". Below this is an image of a computer monitor displaying a website. A red box at the bottom left of the monitor area contains the text: "Visit the store of our partners." On the right side, a red box highlights the text: "Thanks for being interested in this product!". Below this are two buttons: "EN SAVOIR PLUS" and "FICHE TECHNIQUE". The main content area contains three sections: "Un lien immédiat.", "Emplissez votre iPod shuffle.", and "La musique en technicolor.", each followed by a paragraph of text.

My Account Block

The screenshot shows a "My Account" block. It has a pink header with the text "MY ACCOUNT". Below the header is a list of links: "My orders", "My credit slips", "My addresses", "My personal info", and "My vouchers". A red box highlights the text: "Thanks for entering this store, dear customer!". Below this is a "Sign out" link. At the bottom of the block is a "TAGS" section with a list of tags: "ipod", "apple", "shuffle", "superdrive", "nano", and "Ipod touch".

Customer Account Creation Form

The screenshot shows a customer account creation form with the following elements:

- A partially visible text input field for "City".
- A "Country" dropdown menu with "France" selected and a red asterisk indicating it is a required field.
- An "Additional information" text area with a small grid icon in the bottom right corner.
- A message: "You must register at least one phone number" with a red asterisk.
- A "Home phone" text input field.
- A "Mobile phone" text input field.
- An "Assign an address title for future reference" text input field with "My address" entered and a red asterisk.
- A red-bordered box containing the text: "We hope you will get great experience shopping here!".
- A red asterisk and the text "\* Required field" below the box.
- A green "Register" button.
