1. Introduction to Brands Slider

Prestashop Brands Slider module enhances your store with a stylish slider containing logos of manufacturers, presented in your shop. This navigation feature allows customers to browse through the brands and make a choice easily. Unique slider design was developed to fit any front-end.

Key features:

- Brands slider on the home page
- Automatically generated content
- Mobile devices support

Overall information

Brands Slider provides your customers with an outstanding browsing experience. After the installation, the cute slider will be displayed on the home page. Its content will be generated automatically based on data from Manufacturers list in your back-office. Each logo will be the link, leading to the corresponding catalog page.

Stylish glossy design and easy intuitive navigation makes this slider a must-have front-end feature. Installation is incredibly simple: configure if the slider is shown on mobile devices and set the number of brands being displayed.

2. How to Install

1. Set 777 or 0777 on the folders: '/modules/'

Important! Change all permissions back after installation.

2. Modules -> Add a module from my computer -> Choose the file (belvg_manufacturerslider.zip)
