1. Introduction to Custom Price

Do you have some products or items you decided to give away or share for minimal possible price? Then your choice is **Prestashop Custom Price** module. The extension lets your customers decide themselves how much money they want to spend for your products and make the purchase at whatever price they want.

Key features:

- Customers can buy provided items at any price they set themselves;
- Set Custom Price option for any product in your store;
- Easy to install and no configurations required

Overall information

The module will be extremely helpful during give-away campaigns, when the purpose is not to earn profit, yet to attract more visitors or share some items with maximum number of users. With this extension you can apply the Custom Price option to any product in your store. In this case any customer will be able to set his own price for that item and make a successful purchase spending only that amount of money he decides himself.

This way you will be able to run successful advertising or charity campaigns, which will make your store even more popular and authoritative among your customers.

2. How to Install and Deactivate

How to Install

1. Set 777 or 0777 on the folders: '/modules/'

Important! Change all permissions back after installation.

2. Go to **Modules** -> **Add a module from my computer** -> choose the file (.zip) -> upload this module. Choose module in section **Front Office Features** and install it.

3. Go to **Advanced Parameters** -> **Performance** -> click the **Clear Smarty Cache** button

How to Deactivate

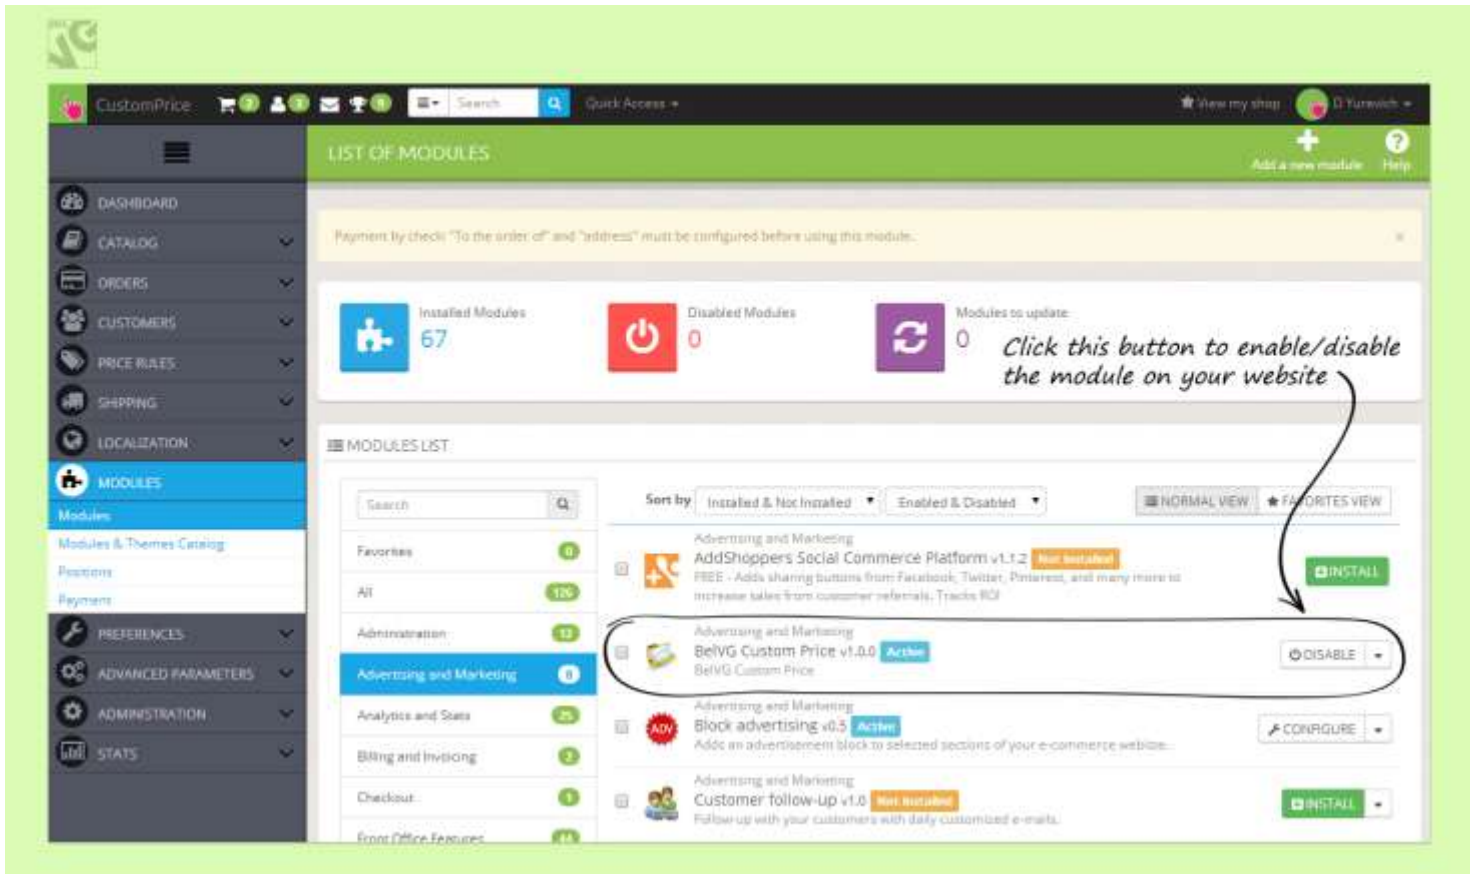

Click the button **Disable** in **Modules** -> **Front Office Features**.

To remove the extension form the server, press **Delete** in **Modules** -> **Front Office Features**.

3. How to Configure

The module is very simple to use and does not require any extra configurations. Once it is installed, you will only have to enable/disable it for a specific product.

To enable the module log into your admin panel and go to **Modules – Modules** – find the **Custom Price** module in the list and click the *Enable* button to the right.

To switch on/off the custom price option for a specific product go to **Catalog – Products** – click the necessary product – go to **BelVG Custom Price** tab.

Click *Yes* to switch on the custom price option for that product.

The screenshot shows the BelVG admin interface for editing a product named 'WINTER COAT'. The left sidebar contains navigation menus for 'DASHBOARD', 'CATALOG', 'ORDERS', 'CUSTOMERS', 'PRICE RULES', 'SHIPPING', and 'LOCALIZATION'. The 'CATALOG' menu is expanded to show 'Products' and various sub-options like 'Categories', 'Monitoring', 'Attributes and Values', etc. The 'BelVG Custom Price' option is selected in the sidebar. The main content area shows the 'Belvg Custom Price' configuration for the selected product. It includes a 'CANCEL' button and a radio button selection for 'Enable Custom Price', with 'Yes' selected. A handwritten note with an arrow points to the 'Yes' radio button, stating: 'Select Yes to Enable Custom Price option for the selected product'. The top navigation bar shows 'CustomPrice', a search bar, and notification icons for carts, users, and messages.

4. How to Use

When you install the module and switch on the custom price option for a particular product, a special field will be added to the product on the frontend.

Customers will be able to enter their own price for that product and complete the purchase.

The screenshot shows a product page for a 'Winter Coat'. The page layout includes a header with 'Your Logo a new experience', a search bar, and a cart icon showing 'Cart: (empty)'. Below the header are navigation tabs for 'WOMEN' and 'MEN', and a breadcrumb trail: 'Women > Coats and Jackets > Coats > Winter Coat'. The main content area features a large image of a woman wearing a dark winter coat, with a 'View larger' button below it. To the right of the image, the product title 'Winter Coat' is displayed, followed by 'Model demo_1' and a description: 'This stylish short sleeve winter coat will keep you warm this winter. The thick knit collar adds an original touch to this elegant coat.' Below the description, it says '8 Items' and 'In stock'. There are also links for 'Send to a friend' and 'Print'. A handwritten note in cursive says: 'Customers can enter any price they want and make the purchase for that price'. On the right side of the product page, there is a price section with 'Original price: \$180.00' and a 'Your price:' input field containing the number '10'. Below the price section are 'Quantity' (set to 1), 'Size' (set to S), and 'Color' (set to black) options. At the bottom of this section are 'Add to cart' and 'Add to my wishlist' buttons.
