1. Introduction to Home Carousel

Prestashop Home Carousel allows you to draw attention of your potential customers to your products. One of the main design trends in internet stores, homepage sliders is a tried and effective way to increase sales, not to mention site's improved usability. The module has several sliders to choose from and add to the homepage: Categories, New and Featured products, Bestsellers and Items on sale. Products are added to the New, Featured and Bestselling sliders automatically. You may select one carousel or many sliders to be displayed at once.

Key features:

- Home carousels
- Many types of sliders
- Automatically added content
- Possibility of displaying the content of the selected categories
- Links to the product pages and categories in the slider

2. How to Install and Deactivate

How to Install

1. Set 777 or 0777 on the folders: '/modules/'

Important! Change all permissions back after installation.

2. Modules -> Add a module from my computer -> Choose the file (belvg_homecarousel.zip) -> Upload this module. Choose module in section "Front Office Features" and install module

3. Preferences -> Performance -> Smarty-> Force compile -> Yes

Preferences -> Performance -> Smarty-> Cache: No

How to Deactivate

Click the button **Disable** in Modules -> Front Office Features.

To remove the extension from the server, press **Delete** in Modules -> Front Office Features.

3. How to Configure

Log in to the back-office, and we will show you how to configure the module step by step.

Go to **Modules -> Carousel Slider -> Configure**.

Category images slider displays categories you select. In order to add a category to this slider, go to **Catalog -> Categories -> [edit the category]**. In the **Image** field, add the picture. All the categories with pictures will be displayed in this slider, if enabled.

In the **Image type** drop-down, select the image type that will be displayed in the slider.

In the **Featured** slider, all the featured products are displayed. In order to make a product featured, edit it in **Catalog -> Products**. In the **Associations** tab, select the Home Associated Category.

In the **New** slider, all the newly added products are displayed.

In the **Sale** and **Bestsellers** sliders, products on sale and bestselling items are displayed respectively.

For **Categories** slider, select categories that you want to be displayed together with their products.

4. How to Use

If configured, sliders appear on the homepage.

Category Images slider on the homepage

The screenshot displays a homepage layout with several key sections:

- Navigation:**
