## 1. Introduction to Product Tabs

**Prestashop Product Tabs** extension will help you to create and add extra tabs on product page. This module allows you to display additional information about the shop's most important and newsworthy products.

### Key features:

- Placing tabs on product page
- Adding as many tabs as you wish
- Edit tab content using WYSIWYG editor included

### General information:

With **Prestashop Product Tabs** extension you will be able to provide your visitors immediate access to supplementary information directly on the product page.

The best way to persuade customers to buy is to offer them enough knowledge about your products. This module is the perfect solution, if you have to add mass additional information about your products that should be viewed on product page.

**Prestashop Product Tabs** module is a simple and comprehensive extension. Use it to let you customers take benefits of complete product presentation.

## 2. How to Install

1. Set 777 or 0777 on the folders: '/upload/'

**Important! Change all permissions back after installation.**

2. Modules -> Add a module from my computer -> Choose the file (producttabs.zip) -> Upload this module.

Choose module in section "Front Office Features" and install module

3. Preferences -> Performance -> Smarty-> Force compile -> Yes  
Preferences -> Performance ->Smarty-> Cache: No

## How to Deactivate

Click the button **Disable** in Modules -> Front Office Features.

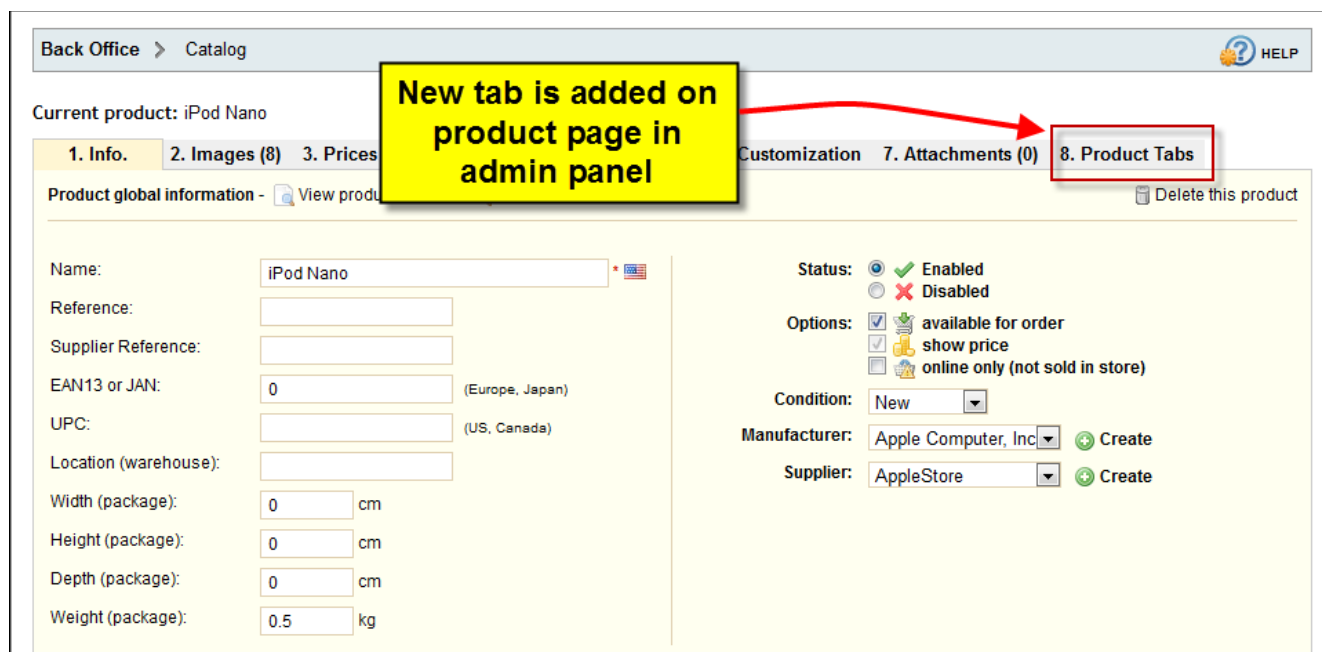

To remove the extension form the server, press **Delete** in Modules -> Front Office Features.

That's all! Enjoy the **Product Tabs** performance.

### 3. How to Configure

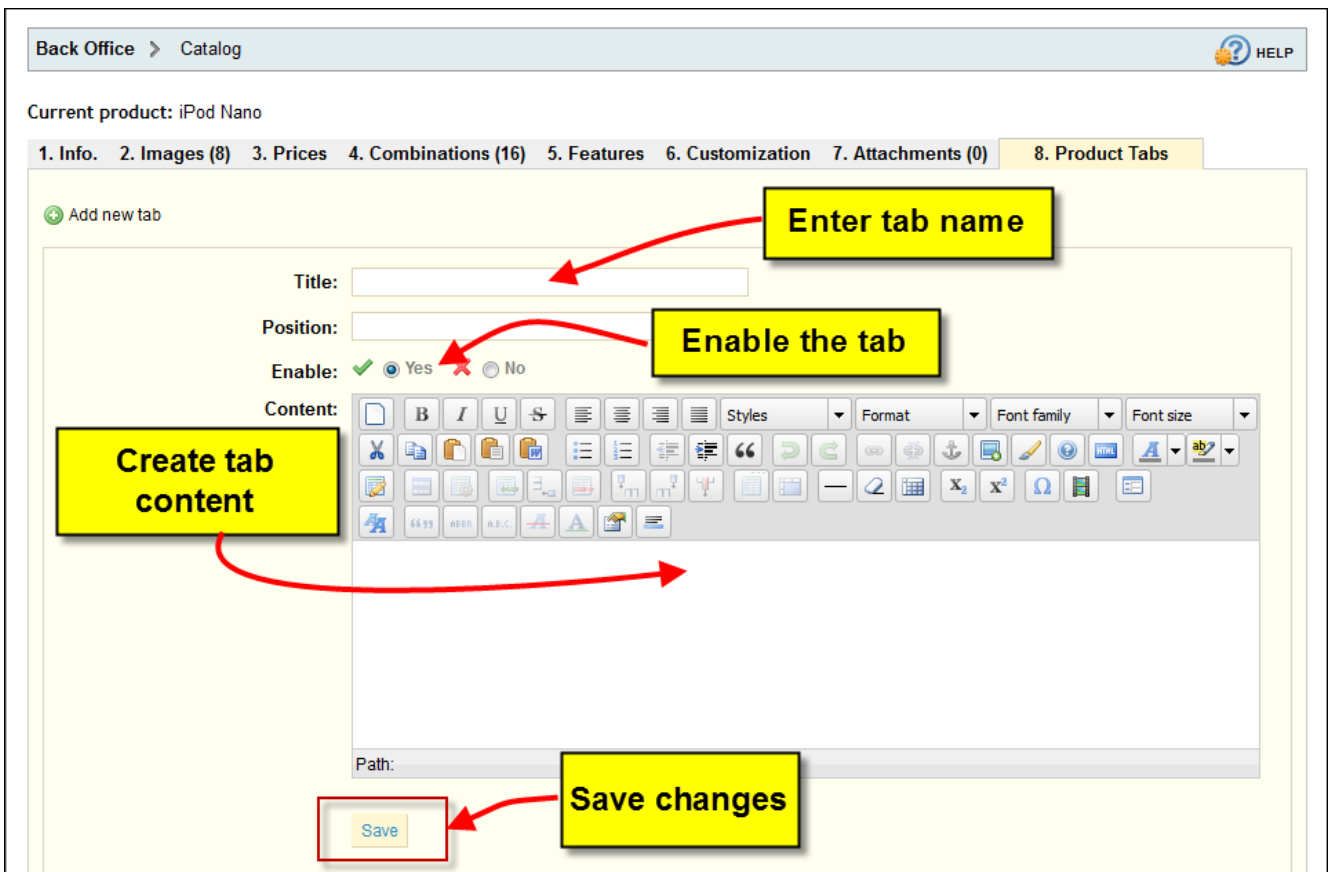

Log in to the admin panel, and we will show you how to configure the extension step by step.

Navigate to **Catalog** and choose product you want to add new tab to. Click *Edit* button on the product row.

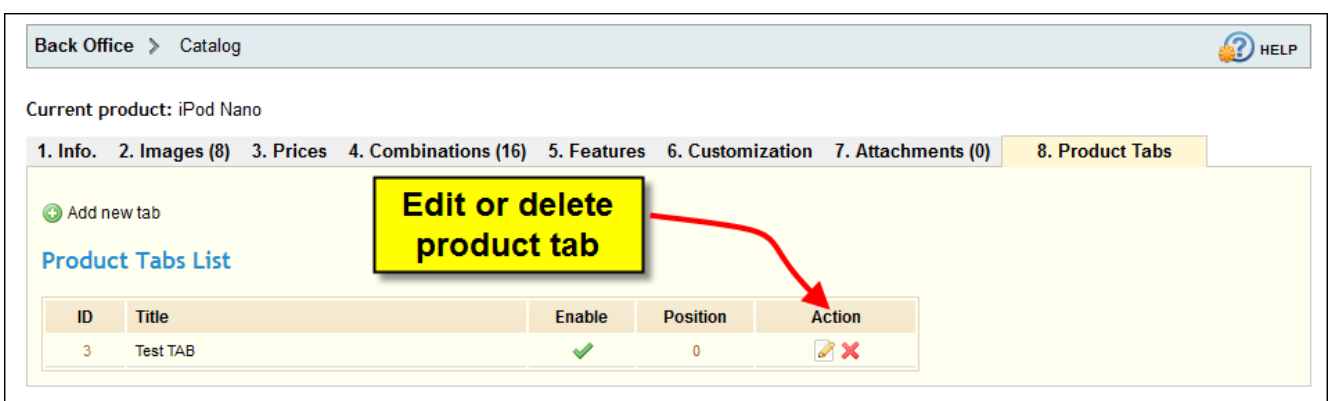

The screenshot displays the Prestashop admin interface for editing a product. The breadcrumb trail is 'Back Office > Catalog'. The current product is 'iPod Nano'. The navigation tabs include '1. Info.', '2. Images (8)', '3. Prices', 'Customization', '7. Attachments (0)', and '8. Product Tabs', which is highlighted with a red box. A yellow callout box with the text 'New tab is added on product page in admin panel' has a red arrow pointing to the '8. Product Tabs' tab. The main form contains various fields for product information, including Name (iPod Nano), Reference, Supplier Reference, EAN13 or JAN (0), UPC, Location (warehouse), Width (package) (0 cm), Height (package) (0 cm), Depth (package) (0 cm), and Weight (package) (0.5 kg). On the right side, there are sections for Status (Enabled/Disabled), Options (available for order, show price, online only), Condition (New), Manufacturer (Apple Computer, Inc), and Supplier (AppleStore).

Go to **Product Tabs** to create a new tab on product page on the Front End.

To add a new tab you need define its name, position, enable it to be available on product page and create tab content. You are free to insert text, images and links to your tab content using WYSIWYG editor included.

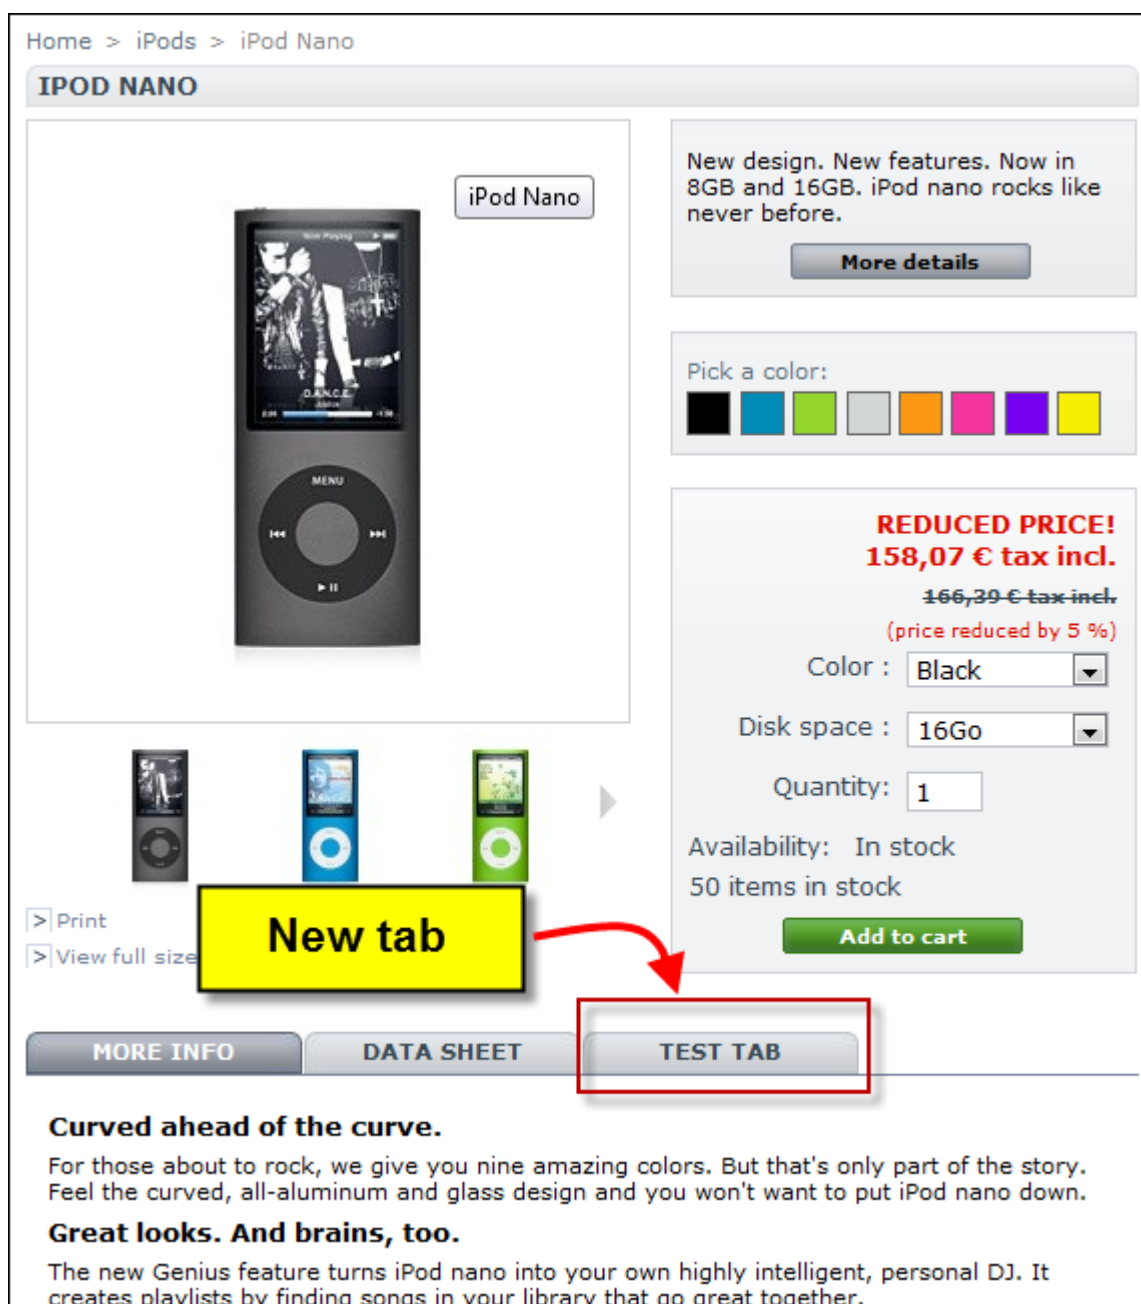

You may insert unlimited number of product tabs. You can modify or delete them.

### 4. How to Use

It's time to get acquainted with **Product Tabs** features and the ways customers may use them. We will visually review extension options and activities related to them.

New tab appears on product page.

Customer may access to tab content by clicking on it.

Home > iPods > iPod Nano

### IPOD NANO

New design. New features. Now in 8GB and 16GB. iPod nano rocks like never before.
