1. Introduction to Quick View

Let customers view all information about products right where they are, on category or homepage, without referring to product pages directly. Install Prestashop Quick View module that displays a popup window on click with product image, description, tabs and Add to Cart button. Users may add products to their carts and navigate through the store assortment, staying on the same page.

Key features:

- Product Quick View on category and homepage
- Add to Cart button in a Quick View popup
- Navigate through the store via quick view window
- Support different themes

General information

Customers may not have enough time to reach the product page and get informed of the product details over there. That will be resulted in revenue loss. Prevent this from happening with Prestashop Quick View module that allows showing all product information in popup on click on category or homepage.

Quick View popup contains product image, description and opportunity to order the item instantly from the window.

2. How to Install

1. Set 777 or 0777 on the folders: '/upload/'

Important! Change all permissions back after installation.

2. Modules -> Add a module from my computer -> Choose the file (belvg_quickview.zip) -> Upload this module.

Choose module in section "Front Office Features" and install module

3. Preferences -> Performance -> Smarty-> Force compile -> Yes

   Preferences ->   Performance ->Smarty-> Cache: No
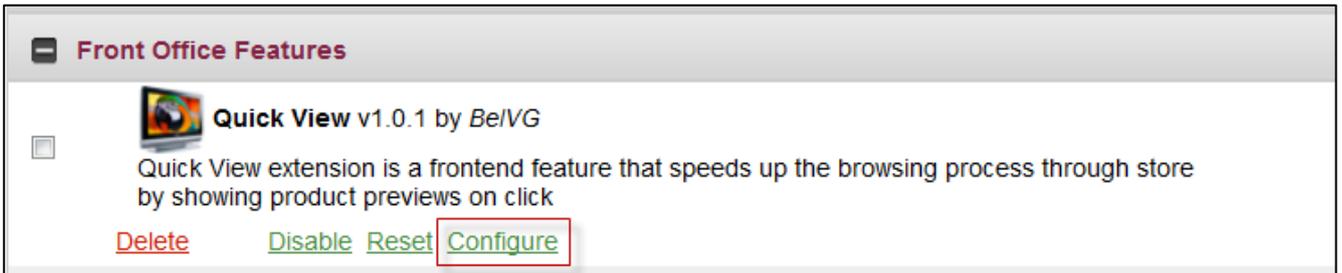

How to Deactivate

Click the button **Disable** in Modules -> Front Office Features.

To remove the extension form the server, press **Delete** in Modules -> Front Office Features.

That's all! Enjoy the **Quick View** performance.

3. How to Configure

Log in to the admin panel, and we will show you how to configure the extension step by step.

Go to **Modules** -> **Front Office Features** -> **Configure**.

Here you may specify the theme for a Quick View popup.

4. How to Use

It's time to get acquainted with **Quick View** features and the ways customers use them. Quick View option can be activated for products on category and homepage.

- Quick View option for category products

- Quick View option for homepage products

Quick View popup contains product image and description, Add to Cart button and Navigation menu.

Quick view popup on a modern theme.
