1. Introduction to Store Locator

Perfect for retail network owners, Prestashop Store Locator module helps customers find the local store of yours on Google Maps and check if the required item is in stock there. User location can be configured to be detected automatically so that the list of the nearest shops could be displayed. In the product page, the extra tab containing stores with this item on hand appears.

Key features:

- Store search by user location and products in database
- Automatic user location detection
- Increased searching radius
- Hint text in the product search form
- Closest stores names, addresses and distances in search results
- Possibility to import data in a CSV file
- Adding products to database via admin panel
- Requires no key to connect to Google Maps
- Displaying distance in kilometers/miles

Overall information

Once you want clients to buy products in your offline stores, Prestashop Store Locator module will be a great solution.

The Google Maps based store locator is embedded right into your default Our Stores page. It locates all your shops to let users find the nearest one. Customers enter the item name in Search for products field and enjoy stores with this item in stock listed. Map locations are being displayed in a user-friendly sliding manner.

Import stores and products data from other eShops of yours in a CSV file. Configure database backup to be run automatically.

2. How to Install and Deactivate

How to Install

1. Set 777 or 0777 on the folders: '/modules/'

Important! Change all permissions back after installation.

2. Modules -> Add a module from my computer -> Choose the file (belvg_storelocator.zip) -> Upload this module. Choose module in section "Front Office Features" and install module

3. Preferences -> Performance -> Smarty-> Force compile -> Yes
Preferences -> Performance -> Smarty-> Cache: No

How to Deactivate

Click the button **Disable** in Modules -> Front Office Features.

To remove the extension from the server, press **Delete** in Modules -> Front Office Features.

3. How to Configure

Log in to the admin panel, and we will show all you may need to configure.

Navigate to **Modules** → **Front Office Features** → **Store Locator** → **Configure**.

The screenshot shows the 'Store Locator' configuration page. It features several settings with radio buttons and checkboxes, some of which are marked with green checkmarks or red crosses. A 'CSV Import' field with a 'Browse' button is present. Handwritten annotations in black ink provide instructions: 'Import data in CSV file, if necessary' points to the 'Browse' button; 'Select if you want to delete previously configured store locator info and backup files before import' points to the 'Delete all before import' and 'Make DB backup before import' options.

Configure the module

Store Locator

Allow user autolocation

Show stores block on the product page

CSV Import Browse

Delete all before import

Make DB backup before import

Import data in CSV file, if necessary

Select if you want to delete previously configured store locator info and backup files before import

In the first line, select if you want user location to be detected automatically.

Next, select if **Available in stores** block should be displayed on product pages.

In the **CSV import** field, you can upload the CSV file with stores and products data you want to import from anywhere.

The file should have the following structure:

`id_store;id_product`

For example:

1;1

2;4

2;2

3;3

3;1

In the next two lines, select if you want to delete previously configured store locator info and backup files before import.

To add products to stores, go to **Preferences -> Store Contacts**.

Select products on hand and save selection.

4. How to Use

Let's get acquainted with Store Locator features and the ways customers may use them. Our stores page looks like this:

Our Stores page

Our stores

Enter a location (e.g. zip/postal code, address, city or country) in order to find the nearest stores.

Search for products: Your location: Radius: mi

34 stores found - see all results:

Google Maps with the nearest stores

| # | STORE | ADDRESS | DISTANCE |
|---|---------------------------------|--|----------|
| 1 | Mohr PLC | 98502 Wiegand Club 21105 West Bernice | 88 mi |
| 2 | Blick, Yost and DuBuque | 3, avenue Lubowitz 01199 Botsford-sur-Welch, ND | 148 mi |
| 3 | Schuppe, Schmidt and Stiedemann | 14, boulevard Gleason 7995 HH Beer, LA | 250 mi |

List with the nearest stores info

Leave blank to search for the nearest stores only

User location is auto-detected (or may be configured to be entered manually)

With **Search for products** field left blank, the engine will display the nearest stores on the Google Maps according to the auto-detected or entered location and radius (which can be unlimited). List with all the nearest stores addresses and distances is below the map.

Our Stores page

Our stores

Enter a location (e.g. zip/postal code, address, city or country) in order to find the nearest stores.

Search for products: Your location: Radius: mi

7 stores found - see all results:

The user enters the product name,...

views Google Maps with stores having the product in stock...

and finds store info in the list (shops with the item are sorted by distance)

| # | STORE | ADDRESS | DISTANCE |
|---|----------------|--|----------|
| 1 | Mohr PLC | 98502 Wiegand Club 21105 West Bernice | 88 mi |
| 2 | Dooley-Dibbert | 49, avenue Wiegand 53924 Bednar-sur-Mer, BZ | 312 mi |
| 3 | Brekke-Bosco | 95, rue de Quitzon Schmeler, VA 75024 | 384 mi |

If the user enters the product name, only stores with this product in stock will be displayed on the Google Maps. Information on these shops is in the list below. The stores are sorted by distance.

If configured, all the product pages are enhanced with an extra **Available in stores** block. Information on all shops with this item on hand is being displayed there.
