1. Introduction to Tell Friends

Encourage new visitors to register and make purchases in your store by installing **PrestaShop Tell Friends** module on your store. The extension lets you provide a special discount coupon for each new registered user and lets your customers share their purchases and products they like in social media accounts.

Key features:

- Automatically generate a discount coupon for each new registered user;
- Set the coupon discount value easily with just a few clicks;
- The module adds a new block with social media buttons to every product page;
- Super easy to configure and use.

Overall Information

The module allows you to set up a special coupon which will be automatically displayed for newly registered users.

The extension also adds a new block with social media buttons for Twitter and Facebook to the product and purchase pages, which lets your customers share their purchases right via their accounts.

2. How to Install and Deactivate

How to Install

1. Set 777 or 0777 on the folders: **'/modules/'**

Important! Change all permissions back after installation.

2. Go to **Modules** -> **Add a module from my computer** -> choose the file (.zip) -> upload this module. Choose module in section **Front Office Features** and install it.

3. Go to **Advanced Parameters** -> **Performance** -> click the **Clear Smarty Cache** button

How to Deactivate

Click the button **Disable** in **Modules** -> **Front Office Features**.

To remove the extension form the server, press **Delete** in **Modules** -> **Front Office Features**.

3. How to Configure

The module is very simple to use. Go to your administration panel to **Modules – Modules** – choose the module **'Tell friends +Coupon for registration'** – click **Configure**.

Here you will need to set up just 2 options:

- **Type of coupon discount** – select to calculate discount either as percent or as a fixed value;
- **Coupon amount** – set the discount value.

The screenshot shows the configuration interface for the 'Tell friends + Coupon for registration' module. The page title is 'General settings' and the breadcrumb trail is 'MODULES / BELVG_SHARING / CONFIGURE'. The main heading is 'Tell friends + Coupon for registration'. Below the heading, there is a 'Type of coupon discount:' dropdown menu set to 'Percent' and a 'Coupon amount:' text input field containing the value '25'. A 'Save' button is located below the input fields. At the bottom, there is a 'CONFIGURATION' section with a 'Manage translations' dropdown menu.

That is all, no other configurations are required, and the module is installed and ready to work.

4. How to use

Now let's see how the module works on the frontend.

When a new user is trying to register the last page offers him to share this event via his social media account or simply send a message to his friends via e-mail. As soon as the user uses the share button the pages automatically generates him a discounted coupon.

The module also adds new blocks with social media buttons to every product page and success page.

MORE INFO

Fashion has been creating well-designed collections since 2010. The brand offers feminine designs delivering stylish separates and statement dresses which has since evolved into a full ready-to-wear collection in which every item is a vital part of a woman's wardrobe. The result? Cool, easy, chic looks with youthful elegance and unmistakable signature style. All the beautiful pieces are made in Italy and manufactured with the greatest attention.
